Bellefonte Republican.

Established in 1869.} "Let Us See To it that A Government of the People, for the People and by the People, Shall Not perish from the Earth."—A. LINCOLN. Terms: $1.50 per Year

VOL. XXVI BELLEFONTE, PA., THURSDAY MORNING, AUGUST 15, 1895. NO. 32

SUED FOR $25,000 DAMAGES.

Senator J. Upperman Sued for Defamation of Character.

Pittsburg, Aug. 9.—State Senator John Upperman has been sued for $25,000 damages for defamation of character. The papers in the case were filed late this afternoon in behalf of Mr. Thomas McCaffrey, a well known real estate broker, and ex-notary public of Butler street, Pittsburg.

The suit grew out of the defeat of Mr. McCaffrey's nomination as notary through the instrumentality of the representative from the Forty-third senatorial district. Mr. McCaffrey is a prominent democrat and has served as notary for a number of years, through several administrations. During the last session of the state legislature the names of about two hundred persons were placed in nomination before the senate as notaries. The public denunciation of McCaffrey by Senator Upperman on the senate floor occasioned great surprise. It resulted, however, in the defeat of Mr. McCaffery's nomination. Mr. McCaffery had no redress for the senator's attack on the floor of the senate, but Senator Upperman is alleged to have submitted to interview in the public press and in one of these he is said to have impugned Mr. McCaffrey's business and official integrity. On this article Mr. McCaffrey bases his action for damages.

A Tragic Death.

Huntingdon, Pa., Aug. 12.—While likely returning from a visit, L. W. Mort, of Flinton, Cambria county, met death in a tragic manner. He was riding on a west bound freight train and when near the vicinity of Mapleton a sudden jolting of the train threw him to the tracks and a number of cars passed over his body. He was literally cut in twain and the sight presented was a sickening one.

The accident happened at 3.30 o'clock and at 4 o'clock the body was brought here. On his person was found $1.25 in silver, a gold watch, revolver, shawl strap knife and four letters. In the effort to discover the unfortunate man's name the letters were opened. The body will likely be forwarded to Flinton.

Inhaled the Flames and Died.

Shamokin, Pa., Aug. 13.—A childish emulation of the feats of some professional mountebanks cost 9-year-old Willie Reynolds his life last night. Some time ago Willie saw some fire eaters at a circus. He concluded that he could do the trick. He got his father's miner's lamp last night and filling his mouth with kerosene blew the oil out upon the lighted wick. The oil ignited and the flames ran up into the little fellow's mouth. Willie ran frantically in search of his parents. His father, attracted by the boy's screams, went to his assistance and succeeded in extinguishing the flames. The boy inhaled the fire and after great suffering died this morning.

Shot His Father-in-Law.

Detroit, Mich., Aug. 12.—Mrs. William Haas left her husband a week ago because of his abuse of her and went back to her parents' home to live. This morning Haas walked into the kitchen, where his wife and children and her father, Michael Kreig, were sitting. "Are you going to live with me?" he asked his wife. She replied "No," and Haas drew a revolver. Mrs. Haas picked up her baby and ran into another room, shutting the door behind her. Haas attempted to follow her, when Kreig interfered and Haas fired two shots at him, one taking effect in the left breast just above the heart, and the other passing clear through the left shoulder. Kreig will probably die. Haas was arrested.

Robbed of $10,000 in Diamonds.

Kansas City, Mo., August 12.—Mrs. George H. Zeigler, of Philadelphia, who, with her husband and child, is stopping at the Washington hotel here, was robbed of diamonds valued at $10,000 to-day. The family was absent from their rooms, when a man to whom they had been introduced called and, going to their rooms, quietly walked away with the jewels, which had been left on the table. Superintendent Conkling, of the Pinkerton agency, said that one of the most astute confidence men in America was reported to be this vicinity, and this dodge was about appropriate to his calibre.

It Was an Accident.

New York, August 12.—The coroner's inquest this morning into the cause of the death of Edward Millard Cameron, a millionaire who was found dead in his house at West Islip, L. I., last night, developed the fact that Mr. Cameron's death was caused by a pistol shot wound accidentally inflicted by himself. He was cleaning a pistol in his room yesterday afternoon, according to the verdict of the coroner's jury, when the weapon was accidentally discharged and the bullet passed through his heart. He died instantly.

SATURDAY'S PRIMARIES.

They Are Generally Believed to Be in Favor of Quay.

Philadelphia, August 11.—The result of yesterday's republican primary elections in the counties of Montgomery, York, Adams, Perry and Juniata and the convention in Schuylkill county was generally favorable to Senator Quay and disastrous to the administration. The Schuylkill county convention elected its seven delegates to the state convention with instructions for Quay and full returns from Montgomery county to-night assure the seven delegates from the county to him. No report could be secured to-night from Adams and Juniata counties of the actual results there, but the indications from the returns received are that Quay will get the delegates from the two counties.

The administration secured Perry county's one delegate and the result in York county is still doubtful. York has five delegates and the administration claims they have them all. None of the administration leaders were in the city today, and consequently no expression of opinion from their side could be obtained of the result of yesterday's election.

Senator Quay was much pleased over the result and said that it only confirmed his statements that he would win the fight. The injury to his heel that Mr. Quay suffered at Brigantine some weeks ago broke out afresh to-day and to-night the senator returned to his home at Beaver. He will probably not return here until the Philadelphia primaries are held on the 20th of the month.

OUTLINING THE WORK.

Ladies' Auxiliary of the Atlanta Exposition Commission.

Harrisburg, Pa., Aug. 13.—Several hours were consumed by the members of the Ladies' Auxiliary of the Atlanta exposition commission this afternoon organizing and outlining the work. This evening the ladies were guests of Mrs. Hastings at dinner at the executive mansion. Miss Jane M. Harding, of Washington county, was chosen president; Miss Mary E Garrett of Philadelphia, secretary, and Miss E. Russell, also of Philadelphia, assistant secretary. A proportionate share of the expense of the erection and furnishing of the state building, at the exposition, will be borne by the auxiliary out of its appropriation of $8,000. A thousand feet of space will be requested in the woman's building in addition to the space already given for Miss Garrett's exhibition by the deaf children. The expense of packing and transporting the historical exhibit by the daughters of the revolution and colonial dames will be borne by the auxillary, which will also make an appropriation for the Woman's Silk Culture association of Pennsylvania. Members of the auxiliary will be allowed their actual traveling expenses on Pennsylvania Day, when the governor and other notables will be present.

John G. Coder, of this city, who erected the state building at the World's Fair, will build the one at Atlanta. It will cost $8,000 furnished. Mrs. Hastings will have charge of the programme at the woman's building on Pennsylvania day.

All Quiet Now.

Winston, N. C., August 13.—Everything is quiet here to-night. There is no indication that Sunday night's riot will be resumed. However, the militia and 100 special policemen are still on duty. The situation is such there is no telling what will happen. A Gatling gun with four men to man it arrived at midnight last night. Very few negroes were on the streets last night. The jury to-day returned a verdict of murder in the Tuttle case. The negroes wanted him cleared, therefore many of them are incensed, though they are talking very little. The verdict is just as a majority of the white people expected. Counsel for the defense will make a motion Thursday morning for new trials, but there is no hope for it being granted. Murder in the second degree in this state means a sentence to the penitentiary of from five to thirty years.

A Bower Club.

The Democrats of Bellefonte and Centre county met in session Monday evening and organized a Bower Club, for the purpose of furthering C. M. Bower, Esq's, chances for the nomination for Superior Judge, as well as to attend the State Convention in Williamsport September 11th. The Club will go down on the 10th in a special train over the new railroad and expect to go fully 200 strong. As there must be one democrat elected we feverently hope it will be Mr. Bower.

Franklin College, New Athens, O., is one of the best and cheapest. $140 a year. Send for catalogue.

MINERS IN SESSION.

Fourth Pool Delegates Meet in Convention Officials Condemned.

Pittsburg, Aug. 12.—Twenty delegates, representing the miners employed in the fourth pool mines, met in convention here to-day. The miners represented are without the national organization and are dissatisfied with the terms of the recent compromise adjustment of wages in the Pittsburg district. The morning session was occupied in effecting an organization and passing on credentials. Among those applying for admission were the officials of the miners' union. This was refused, however, much to the chagrin of the officials.

The officials of the United Mine Workers were not admitted this afternoon to make an explanation of the compromise settlement made some weeks ago. Resolutions were adopted condemning the district officials for the imperfect organization of the miners and favoring the selection of new officials. Another convention will be held during the last week of Aug. and all miners are urged to unite with those representing at to-day's convention.

The action of the convention to-day will not have any effect upon the large majority of the miners in this district, who are perfectly satisfied with the terms agreed upon between the operators and miners some time ago. Only the miners of the fourth pool were represented to-day.

For the Governor's Mansion.

As a Bellefonte family now occupies the executive mansion at Harrisburg, the people of this place, and especially the ladies will be interested in the following particulars of how the mansion is to be refurnished at an expense of $30,000:

The parlor will be Louis XIV style and the study Moorish. There will be expensive portierres, curtains, overdrapery and wall and window hangings. The schedule also calls for a "tea service, six pieces, latest designs," to cost $400, for the mansion and an entire equipment of silverware, including a marquis set of tea, dessert and table spoons, forks, dessert and eating knives, sugar spoons and tongs, oyster forks, coffee spoons, punch ladle, gravy ladle, orange spoons, lettuce forks and soup ladle. Besides, there are fruit knives, fish sets, salad spoons, ice cream spoons, tomato server, jelly server, Trilby berry forks, pickle forks, grape scissors, cake knife, bon bon dish and spoons, cheese scoop, butter plates and spreaders, sugar sifter, pepper and salts, candelabras, chafing dish and chafing spoons and flagon.

The special cut glass schedule for the executive mansion comprise bowls, trays, water pitchers, carafe cheese dish, fruit dishes, vase, sugar bowl, cream pitcher cruets, tumblers, goblets, spoon holders, finger bowls, knife rests, ice tubs, cracker jars and fruit saucers. Much of the furniture, carpets and drapery now in use are in good condition and will stand the ware for ten years. To make room for the new furnishings for which the board has contracted it will be sold at public sale in the corridor of the capitol to the highest bidder.

Veterans Will Meet.

All the arrangements are not complete for the reunion of the Clinton County Veterans' association at Clintondale Thursday. The veterans and families from Clinton and Centre counties will be in attendance. The Military band of Lock Haven the Sugar Valley and Rote bands will furnish all the music desired; the ladies of the Lamar M. E. church will sell refreshments and in addition to the regularly scheduled trains, a special train will leave the park at 7 o'clock for Mill Hall.

In the morning at eleven o'clock the association will hold a business meeting. The program will be as follows: Call to order, 11 o'clock; music; report of treasurer and secretary; appointment of committees on officers and on place of next meeting; music.

In the afternoon the program will be: Call to order, 1.30 o'clock; reports on officers and place of meeting; address, Gen. B. F. Fisher, of Philadelphia; music; recitation, Miss Edith E. Adams, music; other addresses.

Natural gas is decreasing steadily in volume and value. In 1888 the gas consumed was valued at $22,500,000. In 1894 the value was $11,000,000. The use of gas for fuel in manufacturing establishments has, however, been found so convenient that artificial gas is made to take its place when the natural supply falls off. There will be no return to solid fuel in large establishments that have learned to use the gas, for the reason that gaseous fuel is not only more convenient, but, under some conditions at least, more economical than coal.

Laxol, the new form of Castor Oil is so prlitable that children lick the spoon clean.

IT WAS SIMPLY MURDER.

Those Bannock Indians Were Slain in Cold Blood.

Washington, August 13.—The report of Indian Agent Teter, of the Fort Hall reservation, upon the recent Bannock trouble was received at the Indian bureau to day. It confirms the published accounts of the killing of the Bannock Indians. In connection with the killing of the Indians an interesting report has been received by the secretary of the interior, forwarded from the war department. It is from Captain J. T. Van Orsdale of the Seventh United States cavalry, formerly acting agent of the Fort Hall reservation.

The report says in part:

"Being short rationed and far from self-supporting, the Bannocks hunt for the purpose of obtaining sustenance. By treaty they are granted this privilege. It would seem that the killing of these Indians under the circumstances, was nothing more nor less than murder. Further, I believe that there is no wanton slaughter of game by the Indians, while it is a notorious fact that hundreds of the animals are killed by white men for nothing more than heads and horns. There are men in that country who make it a business to pilot hunting parties from the east and abroad, which not only slaughter elk, but capture and ship them out of the country. The killing of game by Indians interferes with this business. The Indians can hardly be expected to submit to the killing of their people while engaged in an occupation which they think they have a right to follow more quietly than white men, and failure by the government to take proper action is liable to result in serious loss of life and property."

The report is dated at Fort Logan, Colorado, and bears the endorsement of Lieutenant Colonel Henry E. Noyes, of the Second cavalry, commanding the post, who says he concurs heartily in what Captain Van Orsdale has said. It is endorsed by Brigadier General Frank Wheaton, commanding the department of Colorado, who hopes that Captain Van Orsdale's recommendations will be favorably considered.

Varieties of Wheat.

The comparison of new and standard varieties of wheat begun by the State College Agricultural Experiment Station in 1890 has been continued through the present season. They were grown under as nearly similar conditions of soil, exposure, fertilizers, drainage, culture, etc., as possible, and the yields reported below are from careful weights of the products of the different plots made at the time of threshing.

The plots were one-twentieth acre in size. The land was plowed early in August to a depth of six or seven inches, thoroughly pulverized and firmed. All varieties sown September 1st, at the rate of seven pecks per acre.

Twenty six varieties have been grown side by side for the past six years. Seven of these have been under trial for three consecutive years and the trial with eleven sorts covers two years.

In 1895, the Mealy, a smooth red wheat, produced 36.36 bushels per acre, the largest yield of any variety tested. Following this variety in the order of their production are: Reliable 34.2, Royal Australian 33.5, Miami Valley 32.7, American Bronze 32.45 and Jone's Square Head 32.44.

Bicycle Race Meet at Tyrone.

The wheelman of Tyrone purpose having a big time on Saturday afternoon, Aug. 24, when a race meet will be held at Woodin's driving park, which is open to the wheelmen of Bedford, Huntingdon, Centre, Clearfield, Cambria and Blair counties. There will be five races as follows: One-half mile, novice; one mile open; two miles, handicap; one-half mile, for boys under fifteen years; and a five mile, novice. Prizes will be awarded amounting to several hundred dollars. After the races there will be an exhibition of horse racing. Entree blanks can be secured by addressing D. M. Wolfe, Secy., Tyrone, Pa.

Tomatoes Too Cheap.

Tomato growers in various sections of Gloucester county, N. J., are greatly depressed over the drop in prices for tomatoes and state that the present prices do not realize enough to pay for picking and carting, and tons are now rotting on the vines. A large crop of tomatoes is reported all over the county and the market is already glutted, and unless prices take a jump the truckers say they will be left without sufficient funds to pay their hired help.

Is the way of fashion the numbers of Harper's Bazar to be issued during the next few weeks will present chiefly elegant out-door toilettes for garden and lawn parties, driving, the sea-side, etc. A story entitled "A Career," by Harriet Prescott Spofford, will appear in the Bazar dated August 3d.

THE TELEPHONE QUESTION.

The Penns Valley Patrons Say the Price for the Use of Their Phones Must Come Down or the Phones Will Come Down.

In pursuance of the proceedings of our Board of Trade, and what has already been published in the News, relative thereto, the following correspondence will be more than interesting to the Telephone Company. The time now seems to be at hand for those aggrieved to act in their own interest, and it seems that the people in Penns Valley are making a move in that direction, which will accomplish something or lay out the 'phones. Charles P. Long, Spring Mills, Centre County, Pa., was here last week in the interest of his associates on the line of the 'phone. He says, if the price for their use can be reduced, that the telephones will be doubled in Penns Valley and probably tripled. If the Central Company refuse to accede to their wishes, they are anxious that a new Exchange shall be organized immediately, in which the patrons will have an opportunity to take a share of stock—to give every person who wants a 'phone an opportunity to take stock; and he is quite sure, that Penns Valley will respond liberally. He complimented McCalmont & Co. on being the first to refuse to be imposed upon by the Central Telephone Company. It looks as if this correspondence will wake up somebody.

Bellefonte, Pa., May 14th, 1895.

Messrs. Simon Harper & Co.,
Centre Hall, Pa.

Gentlemen:—We owe you an apology for not responding to your request to talk with you on the telephone at Sechler's store. Owing to the fact, that we declined to sign an arbitrary contract with the Telephone Company, we have severed our connection with the Exchange. We have paid the Telephone Company for the use of two 'phones more than one thousand dollars during the past ten years, which, with the interest added on the several payments, now amounts to more than Thirteen Hundred Dollars. We are very sure, that we have not realized more than fifty cents on the dollar, over and above what we would have received, without the telephone service. It is not what a business earns, it is what it saves, that increases the bank account. After paying the Company this large sum of money, they proposed to make a reduction to us. The conditions offered, were to sign a contract to pay $7.00 per month for the use of two 'phones, if paid on or before the 15th of each month, a reduction of $2.00 per month would be allowed. We stated that we were willing to pay Five Dollars per month—that we were not willing to take our chances on being compelled to pay Seven Dollars per month; if we should overlook the time that the same should be paid according to their terms of contract. If they would call on us for the money, and make that one of the conditions; we were willing to contract with them, which they declined to do, and would not accept anything but their arbitrary terms, therefore, we agreed to disagree. We are not convinced that Express Companies, Telegraph Companies and Telephone Companies, with the present mail and freight facilities, are of any very great advantage to business. They are teaching the young people to conduct business on the spur of the moment, instead of on matured plans. Business conducted in this way, is not conducive to the best interests of people in general, because business plans not properly matured, are seldom attended with satisfactory results. Business conducted by these new methods, is a good deal like a man out of business, waiting for something to turn up. If one is waiting on a customer with a telephone in his place of business, he is frequently interrupted by a telephone call. It is immaterial how important the business with his customer, who comes to his place to transact business, he must wait till the telephone is answered, no matter how trivial the call This is one of the nuisances that a telephone brings to your place of business. If you have two customers in the store—as a rule you wait on one of them, the first one that comes, while the other one waits; but the one who calls on the telephone, wants to be served first no matter who may be waiting at your place of business. This leads to confusion. The telephone is useful in some respects, but it costs too much. The Express business, and the Telegraph business are in the same line. They cost the people too much for the service they render. The best evidence of this is the large sums of money, which these Companies charge and receive for the services rendered. They are a monstrous tax on the people. Think of the Adams Express Company having a surplus of Fifteen Millions of Dollars, and probably, a great deal more. Western Union Telegraph is paying dividends on millions of dollars of stock, which never had any existence in actual money by which, the Telegraph Kings grow rich. The Central Telephone Company of Pennsylvania started with One Hundred thousand dollars Capital on paper; they increased it to Two Hundred Thousand dollars—and is now earning dividends, as is reported on Five Hundred Thousand dollars, and is now capitalized at that figure. When we come to consider these facts, we think the time is at hand, when the people should either compel the telephone companies in existence to serve the Telephone business at a fair price or organize new companies. The fact is, that the people now in control of the telephone service never offered any stock to their patrons to whom they rented their phones. It would appear that the projectors of the 'phones did not want their patrons to know what a profitable thing telephone stock is. Inasmuch as we have refused to rent a telephone, we do not feel that it would be consistent in us to use other people's telephones, when we are requested to do it. The telephone people would say, at once, 'that we were sponging their phone service for our use," hence we feel that we would not be justified in responding to telephone calls at our neighbor's places of business. We will be very glad to have your patronage and trust that you will write us a postal card when in need of anything in our line. Yours very respectfully, McCalmont & Co.

To the Central Penn'a. Telephone and Supply Co.

We, the undersigned petitioners, having respectfully petitioned you in a former petition asking for a lower rate, and the reply to that petition being unsatisfactory, we again petition you, asking for the rent of telephones to be reduced to three ($3.00) dollars per month, and if you cannot grant it, we ask that you remove our 'phones by Aug. 15th, 1895.

To the Central Penn'a. Telephone and Supply Co.

We, the undersigned subscribers to the Central Penn'a. Telephone & Supply Company, fully understand that the subscribers to the above Company expect to abandon the use of the telephone at the following named towns:—Spring Mills, Centre Hall, Pleasant Gap, Lemont, State College and other places, unless they are on equal rates with us, or, as they ask in their petition, a three ($3.00) dollars per month rate.

As the rates were equal, when our contracts were entered into, and we are interested that they should still continue to be, for, as a matter of business our 'phones are not worth to us, what they should be, if the country village subscribers cease to use them. Bellefonte, Pa., Aug. 7, 1895.

Vacation Time.

Is at hand and is gladly welcomed by all, especially those whose duties in life have caused them to greatly run down their system to meet the requirements, physical and mental, forced upon them. With these and others, it is important, whether at home, at the sea shore or in the country, that some thought be given to diet, and as further assistance to nature, a good building-up medicine like Hood's Sarsaparilla had best be resorted to. If the digestion is poor, liver deranged and frequent headaches seem to be the rule, Hood's Sarsaparilla will change all this and enable everyone to return to their home and business in a refreshed state of mind and bodily health.

The August reports of the Agricultural Department (which are no longer regarded as reliable) are not so favorable as they have been. There is reported to be a great falling off in the condition of cotton and of spring wheat. This, if true, may make little difference to the producers, who no smaller crops, will get higher prices per unit. But it makes a great difference to the speculative gamblers, particularly to those who may happen to know exactly what value to put upon the Government reports.

Dat "Watermellon" Game.

The Bellefonte colored base ball club crossed bats with the Philipsburg chocolate drops on Wednesday and both teams were well matched for a few innings, but the Bellefonte boys were too hot for the Philipsburg coons. There was Mr. Moore; the great Philipsburg catcher; he was very windy and loud, but he didn't make noise enough to rattle the home nine, they were too smooth for them.

Look 'ere, Mr.; yous wants to grease your foots a little mo'e before yous slides on dis yer base; you ain't greasy 'nough, boy. You am all right to do the buck, but yo' can't play ba'l. Look yere, Boy yous all done been way back dare in de woods till your all don got black allover, and yous all wants to git out where de sun kin shine on you; an' once mo' for yous all don cum from way behin' de sun. Boy, yous all wants to git up and spit on yo' chicken hooks some mo', den yous might have a little sho' to win some time. But yo' can't fool wid de colored pop'lation oyer yere in Bellefonte. Becase deys in de sun, boys, all de time: and dey does not like de shade too much 'deed. Look yere, John Delige; yo' wants to stay out of Massa Tom Shoemaker's Ba'b-wire fence de nex' time yo' cum to Bellefonte, and Mr. Smif wants to keep his kidneys outen de watah bucket, and keep on de good side ob de boys in Bellefonte, if yous wants to hab a good time when yous cums to see us, yous aint in it wid us; we are all made ob good stuff and dat Mr. Cane Dillin dinks dat he am good, but he didn't hab de strength ob a good size mud-sucker. Why, look yere, Sambo; yous does not kno' your onion; yo' isn't strong 'nough to do us. Look yere, Mr. Dillin; did yo' see us hittin dat dere ball fo' two and free bases? Did yo' see how dat Jim Delige hit dat ball? Boy, why yous aint in it wid us any mo', so you aint. And Bellefonte didn't do a thing but lick 'em by the score of 22 to 15.

Everybody watch for the big game of ball on August 15th at Hunter's Park, between the Philipsburg Excelsior team and the famous Black Diamonds of Bellefonte. They are both well matched. Admission to all, only 10 cents.

Milton's Big Fair.

The eleventh annual meeting of the Milton Driving Park and Fair association will occur on the 3rd, 4th, 5th, and 6th of September, and it will be the biggest and best meeting the society has ever held. The premiums and purses are more liberal than those of any other fair in the central part of the state. Extensive improvements have been made in the buildings and grounds and a fine exhibit in all departments of the fair is promised. There is every promise of a large field of horses for the races. The society has just signed a contract with Fenz & Co., the famous booking agents, for exhibitions daily by the great Arab Troupe, Bark Ben Achmet—composed of three men and three ladies. The feat of this troupe are marvelous and they will give exhibitions each day of the fair. The railroads will all run specials and sell excursion tickets.

Philipsburg Has It.

No industry has made gains so proportionately large as that of the production of aluminum, and in asmuch as this mineral is said to exist in large quantities within close proxmity to Philipsburg may we not hope to see large developments along this line in the not far distant future. Ten years ago only 150 pounds of the metal were made in the United States, and several hundred dollars per pound was the price asked. In 1894 the production was 550,000 pounds and the price had dropped to 55 cents per pound. In a similar degree has its adaptation to modern uses been brought into effect.—*Journal.*

Clearfield Lumber Items.

From the Raftsmans Journal.

M. G. Brown will move his mill to the large timber tract of Powell, Cardon & Brown, near Tree Runs, next month, and will begin the cutting of 6,000,000 feet of lumber.

William Hoover, will ship his lumber mill to Oregon next month. The freight on the mill from Clearfield to destination will be $600, yet he says he can save something at that, as the mills in that country cost about twice what they do here

Still Living.

Henry Varner, of Boalsburg, who attempted to commit suicide on Friday, July 26th, by taking a large dose of corrosive sublimate, is still living, but is not out of danger. The attending physicians have been working hard to save the man's life. The prospects for Varner's recovery are somewhat beeter than they were a week ago, when his case was almost hopeless.

Church Contracts Awarded.

The work for the new Reformed church in Centre Hall, has been awarded. John Noll, of Bellefonte, has the contract for the mason work, and H. F. Bartley, of this place, was given the contract for the carpenter work. Both these gentlemen are skilled mechanics of large experience.

Make your own orange extract by adding the peel of six oranges to a pint of alcohol.

Children Cry for Pitcher's Castoria.

THE BOYS AT GLENCAIRN.

A Breezy Letter From the Soldiers in "Camp Greenland."

GLENCAIRN, Pa., Aug. 5, '95.

Four days absence from home finds the boys of the gallant Second Brigade comfortably and beautifully quartered on the property of Major Aull and resting from the trying ordeal of inspection which the several regiments had this morning. The camp ground has the most charming surroundings. Hills and mountains are close by on all sides and at the lower edge runs the gently-flowing Allegheny river on which the "Florence Belle" and many other pleasure steamers are constantly running, carrying immense numbers of soldiers and others to and from the camp. Right opposite the street of company B is the landing, and the visitors who are numerous are consequently "passing in review" before the "sojer boys" of that company. The continuous tooting of the steamboat whistles tells the story of the fun the boys are having on the water, while the girls stand on the shore and flirt with the "swells."

Freeport is a pretty little tow of 3,000 inhabitants, about three miles up the river, while about three miles down the river is the town of Natrona, which boasts of one of the largest salt works in the country. These two spots are proving meccas, as it were, for the soldiers, who always deem it necessary to take a day or two off and go visiting. Some succeed in visiting, while many find themselves better off in the guard house. However, much to the credit of the boys, it can be said that far less disorder has been detected at this camp than at any preceding encampment. Of course, the discipline in the National Guard is improving each year. The experience of one summer's camp proves a benefit to the succeeding one and, as a result, the efficiency of the Penna. Militia is rapidly approaching as near perfection as it can ever reach.

The Fifth regiment was the last to reach Camp W. W. Greenland, arriving here about 8 o'clock on Friday evening. Of course, Company B had its customary wait of two hours at Tyrone. The time proved too short for some of the boys who had not been to call on their friends since passing through Tyrone in a similar way last summer. By the time we reached Blairsville Junction we had gathered in all the companies of the regiment and after that went sailing on, one large train of militiamen, eagerly wishing for and awaiting the hour to come which would mark our arrival at the tented city of Glencairn. Once there, it required but a few manoeuvres to march us to the quarters which were in readiness for the arrival of the Fifth. Fortune smiled on Company B from the very start off.

Almost perfect unanimity of sentiment among the Company B men in favor of Quigley for Captain ready to assert itself when the hour of 9 o'clock Friday evening should arrive—the hour appointed by Colonel Burchfield for the election—succeeded in rendering the company a very harmonious one. Such a desirable state of affairs will undoubtedly continue, for officers and men are in dead earnest to place the company in its old position of "first in the regiment," and they fully realize, from past experience, that factional spirit is ruinous to success. Then again, the position of Company "B" in the camp is perhaps the most desirable and the most comfortable of all.

When we marched into quarters on Friday evening we were agreeably surprised to find the advance detail, Lieutenant Taylor commanding, awaiting us under the now famous apple trees that give a protecting shade to Company B alone, inasmuch as the solitary row of these fruit trees extends through this company's street. When wearied from drills and parades, upon return to quarters we have but to doff our military coats and enjoy the rest and comfort that can always be found under the apple trees. Most of our company now are experiencing the pleasure. Heretofore it has been necessary to seek shade at a considerable distance from our company street, now it is right at hand.

After being assigned our tents and distributing the property of the company, the election for Captain was called, whereupon the company was marched in front of regimental headquarters by Lieut. Jackson and the election was held, Major McNamara, of Bedford, conducting it. As expected, Henry C. Quigley was the only nominee and he was elected by acclamation. Three hearty cheers were given for the new Captain and the company was marched back to quarters and dismissed. Many of the senior line officers called around and extended their congratulations to the young Captain, who, all here expect to make one of the best captains of the guard.

Sunday was a gala day here. Thousands of people from the western part of the state came in special trains in the morning and seemed to enjoy their day with the soldiers very much. The visitors were particularly enthusiastic in their applause of the movements of the brigade in drills and review. On Saturday Governor Daniel H. Hastings arrived, accompanied by his wife, daughter Helen and her guest, Miss Adeline Harris, of Bellefonte; also Col. Reeder and Mrs. Reeder, of Bellefonte. The young ladies above mentioned are happy in their first taste of military life and as proud as the proudest when wearing the swords that the Staff officers so often gird about them. The Governor was received by the troops in true military style, as he always has been when in the presence of the citizen soldiery.

Captain Quigley pleased the men of his command that evening when he called to the front of the company certain members who had left the camp and neglected the duties of the day, thinking that the Captain, in his newness, would overlook it. The boys were reprimanded and made to understand that such neglect of duty would not be tolerated, and if it would be persisted in, the offenders would be summarily dealt with. The effect was good and discipline then and there established in company B that has continued ever since. Captain Quigley has excellent control of his men, both at quarters and on the field, and has already gained the highest respect of every member of his command.

The company passed a splendid inspection today and fully verified the prediction that had been made that it would do so. So that any who have been alarmed over its prospects may dispel their alarm at once as the company promises well and will surely reach soon the highest position in the regiment, which it held so long in days past.

Lieutenants Jackson and Taylor are enthusiastic officers of the company and will be very valuable aids to the Captain in realizing the object of their enthusiasm, namely, that company B shall be second to no other company in the State.

The company was honored yesterday with the presence of the Governor and his party at the religious service held under the apple trees. Chaplain Stock preached the sermon.

In the next letter some personal notes may be inserted that will interest some friends of the company. We must now report for dress parade. J. R. H.

COMPANY "B" FORGING TO THE FRONT.

GLENCAIRN, PA., Aug. 6, '95.

A very heavy rain storm spent its force this morning, preventing all drilling, but by noon it was over and now, with the mid-day meal a thing of the past and the weather pleasant, the customary recreation is being indulged in before the orders are given to fall in for battalion drill. Occasional falls of rain are exceedingly welcome at camp, for without them the grounds would be unbearably disagreeable and dusty. As intimated in the letter written yesterday, every effort is being made by all the officers of the home company to take the company from the camp of 1895 with a record that all interested may be very proud of. The men are receiving constant cautioning to do their very best in every duty assigned them and to preserve a military bearing in the camp at all times that will call forth nothing but the most favorable criticism. All the men, almost without exception, are heeding the good advice they receive to the best of their ability. Not a detail is sent out from the company quarters for brigade, regimental or patrol duty that is not thoroughly inspected and counseled to make the best possible showing. Such attention to the work of the men cannot fail to win back the laurels held in the past.

Lieutenant Jackson had charge of the patrol yesterday and to say that he did his duty in good style is unnecessary, as "to do my best" is known to be his moto. With Quigley at one end of the Company as Captain, and Lieutenant Taylor at the other end as Second Lieutenant—both as thoroughly competent officers as they are enthusiastic—the success of the company in all its manoeuvres is assured at all times; and there prevails, in consequence, a confidence and readiness among the men that is rapidly making Company "B" forge to the front on the field as the best drilling company in the battalion. This is not mere sentiment either—it is a simple fact. In the inspection drill yesterday, for example, the boys executed certain movements under the supervision of the officers in excellent style, while other companies bungled them up considerably. Of course another day's drilling will acquaint all companies with the field movements and then that Company will lead the regiment that reaches the highest degree of perfection.

To be fed well means to work well, and who could question the quality of the work done by Company B when the overhanging apple trees suggest apple sauce and apple pies, apple dumplings and fried apples, and apple-pie order. The rations issued by the authorities were quite scanty at first and much complaint was heard, but the home company, in its wisdom and at its own expense, bought eggs, butter, pickles, etc., at home and had them shipped here, so that our fare has been far superior to that of many companies.

The fun at camp, between drills and in the evening, has always been an attractive feature of military life in the National Guard, and this year there is plenty of fun surely.

The pranks and jokes of the funny men are numerous, and the unsophisticated in the ranks are the easy victims of many innocent gags. To see the new men, under advice of the veterans, appearing at headquarters for umbrellas, gum coats, gum boots, drill manuals or strap oil, etc., which they have been led to believe are issued after the manner of meal and bread, certainly provoke the heartiest laughter. False patrols, chemical compounds of unpleasant odor and the sudden overthrow of a tent occupied by new or noisy men, come in for their share of fun production. But that is not all. The many pretty girls that visit the camp—girls that brass buttons, by their own confession, have always fascinated—afford a pleasure for the "boys in blue" that certainly can not be derived from any military manoeuvring. These girls can never go home from camp and justly claim that their presence there was not noticed or appreciated. The visitors came in large numbers to-day to witness the review of the brigade by the Governor. This is always a great spectacle and one that the boys delight to participate in as well as the spectators to observe.

Reduced Rates via. Pennsylvania R. R. for Mount Gretna Farmer's Encampment.

From August 19 to 24, inclusive, the Pennsylvania Railroad will sell, for the above occasion, round-trip tickets to Mt. Gretna and return *at rate of one fare for the round trip*, from principal stations between East Liberty and Bryn Mawr, on the Northern Central Railway north of and including Lutherville, and on the Philadelphia and Erie Railroad Division. These tickets will be valid for return passage until Aug. 24, inclusive.

For information in regard to train service and specific rates application should be made to ticket agents.

Bluff and Boodle.

Last week was a week of dodging and evasion with the Quay managers. This week is one of bluff and boodle. Their democratic newspaper organs, Col. McClure's Philadelphia "Times" and Col. Singerly's Philadelphia "Record," and the mercenary Philadelphia "Inquirer," sounded the keynote that the Quay men were to claim everything, although they were weaker than ever. T. V. Cooper, backed it up with a table of ridiculous figures, in which to show a majority for Quay he had to even claim 23 votes in Philadelphia. This is the bluff end of the work. "Bill" Andrews and "Jack" Robinson are traveling from county to county, and the boodle end of the game makes no noise—at present—though it may be heard from n the criminal courts later.

Washing the Oilcloth.

The old-fashioned rule was to wash oilcloths off with equal parts of skim milk and water to insure their being bright and preserving the varnish. The best way now is to put two tablespoonfuls of kerosene into the water used in whiping the oilcloth. If the varnish is worn off and the oilcloth much soiled, it must be very thoroughly scrubbed with sand soap and water and then rinsed off with clear water in which a little ammonia has been dissolved about two tablespoonfuls to a pail of water. When this is done, the oilcloth must be left to dry thoroughly, and then it should be revarnished with the best quality of oilcloth varnish, which comes for the purpose.

ENGLISH Spavin Liniment removes all Hard, Soft or Calloused Lumps and Blemishes from horses, Blood Spavins, Curbs, Splints, Sweeney, Ring-Bone, Stifles, Sprains, all Swollen Throats, Coughs, etc. Save $50 by use of one bottle. Warranted the most wonderful Blemish Cure ever known. Sold by F. Potts Green, Druggist, Bellefonte, Pa. 6-20-1y

—Itch on human, mange of horses, dog, and all stock, cured in 30 minutes by Woolford's Sanitary Lotion. This never fails. Sold by F Potts Green, druggist. Bellefonte, Pa. v26-5-1y

Add a tablespoonful of powdered borax to the bath, as it will soften the water and prove very invigorating.

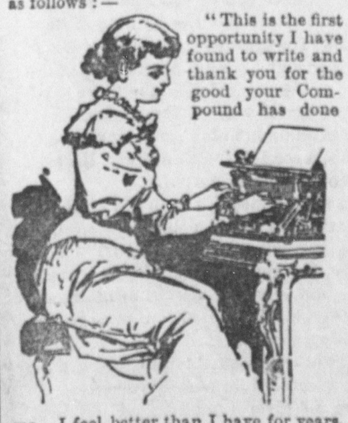
YOUNG LADIES' TROUBLE.

FACTS MADE KNOWN TO FRIENDS

Lady Stenographers, Typewriters, and all Working Girls Interested.

(SPECIAL TO OUR LADY READERS.)

This class of women are more or less afflicted with illness brought on by constant application in one position. Therefore all will be interested in the candid expression of this bright young lady of Denver, Col., who writes Mrs. Pinkham as follows:—



"This is the first opportunity I have found to write and thank you for the good your Compound has done me. I feel better than I have for years. It seems a seven days' wonder to my friends. Where I used to be pitied, everything is the opposite, and there is not a day but what some one wants to know what I have done to work such a wonder.

"Before taking the Compound I had constant headaches; was constipated; bloated; eyes weak, with watery whites; bearing down pains; pains in the small of my back and right side; took cold very easily, which always caused intense pain in ovaries. I did not want to go anywhere or see any one.

"I was called cross, but I could not help it, feeling as I did. I could not lift anything or do any hard work without suffering for days afterward. Menstruation lasted from eight to ten days, the first two or three days being in almost constant pain, day and night.

"*Lydia E. Pinkham's* Vegetable Compound has made a new girl of me; am now well, happy, and strong." Yours truly, A STENOGRAPHER, Denver, Col.

NEW DISCOVERY.

Among the many discoveries of the present age, none rank higher than the new metal silvereen, which owing to its great durability and cheapness is bound to take the place of silver in the manufacture of fine tableware.

Silvereen is a beautiful white metal, will not tarnish or rust, and all goods made from it are warranted.

We want every one to have a chance to compare silvereen with silver, so for the next sixty days we are going to give away one half dozen Crown Silver Tea Spoons *Free*, to every person who will send for one of our Terry's Silvereen sets, containing six Tea Spoons, one Sugar Shell, one Butter Knife. If at any time the Silvereen goods do not prove satisfactory, return them and your money will be refunded. Remember we give you the Silver Spoons.

Price of Silvereen set, $2.00. f7-2y.

TOLEDO SILVER CO. TOLEDO, O.

The Colonel at Work.

The "Hornet" this week is chuck full of usefull news, not the vaporing of tom-tits. —*Hornet.*

Evidently, if the above is correct, Colonel Dunham himself must have edited this week's issue. But he forgot to state what was wrong with his usual staff of "tom-tits."

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

A Small Judicious Investment Often Brings a Fortune.

DEAR READERS:

We have heard from many of you during the brief period that our advertisement appeared in this space. Any others desiring full reports and statements can secure same by writing to us.

The further opening up of the South Central group of gold mines, and the erection of a Stamp Mill to reduce the company's ore to bullion, is a square, legitimate use of capital.

1. Mr. Barry, formerly of Cripple Creek, the Bonanza gold camp of Colorado, sold his interests there, and bought the Morning Star gold mine, a producer in the vicinity of the South Central group.

2. Captain Plummer, formerly of the Granite Mountain mine, is now working the Delamar Mine, a large producer in the vicinity of the South Central group.

As the Granite Mountain (Gold and Silver Mining Co.) stock rose from about twelve cents a share to over $60 a share, and paid from 25 cents to 50 cents per share per month in dividends, under the superintendency of Captain Plummer, we consider him a pretty safe guide to follow in mining, and we invite you to participate in the nyestment.

Orders received within a reasonable time, on or accompanied by the following coupon [Mention this paper,] will be filled at

12 1-2 Cents a Share. **Certain** to advance and yield 10 to 10 fold, and over, on this price.

Very respectfully yours,

The South Central Consolidated Gold Mining and Milling Co

[STOCK ORDER FORM.]

SCRIBNER'S MAGAZINE

AN IMPORTANT CLUB OFFER

SCRIBNER'S MAGAZINE

-AND-

The Bellefonte Republican

For $3.75.

If purchased separately these periodicals would cost $4.50.

IT IS THE PLAN OF SCRIBNER'S to give its readers next year a history of the past 25 years in the United States. (1894-95.) These years have been unparralleled in the history of the world for national development and material progress. The narrative will be written in a graphic and picturesque style by President Andrews, of Brown University, an capable artists will illustrate it.

ROBERT GRANT whose "Reflections of a Married Man" will long be remembered, has written a series of articles on "The Art of Living," in which he seeks himself to solve, as far as such problems can be solved, questions which beset every well-to-do family: The Income—The dwelling—Household Expenses—Education of Children—Married and Single Life—The Summer Problem, etc., etc. Beautifully illustrated.

GEORGE MEREDITH, whom more than one good authority has pronounced the greatest of living novelists, has written a strong serial, "The Amazing Marriage" to begin in January.

D. HOWELLS, will contribute a novel entitled "The Story of a Play."

IN THE LAND OF DON QUIXOTE will be a series of three sketches illustrated by Daniel Vierge's wonderful drawings.

SINGLE ARTICLES in great variety have been arranged for and the illustrations will be eleborate.

Scribner's For 1895 Will Be Better Than Ever.

If you desire only SCRIBNER'S MAGAZINE remit $3.00 to the Publishers:

A Great Band Tournament.

The picnic event of the season will be the tournament at Hecla park, on Wednesday, August 28th, of the bands of Centre and Clinton counties. The phenomenal success that attended the tournament last year has prompted the members of the Coleville band to undertake another, this season, the posters for which are already out.

The contest will be open to all the bands in either of the counties, with the exception of the Coleville band, and the one showing the best execution of a previously selected piece will receive a cash prize of $40.00. In order that the event be successful in every respect it has been arranged to conduct it in the nature of a basket picnic for musicians and their friends, though good substantial meals will be served on the grounds at the nominal cost of 25 cents.

If you want to have a good time and see one of the largest gatherings ever assembled in this county wait for the band tournament.

We will announce the band entries in a subsequent issue.

The Logan's Picnic.

While attending picnics and thinking of picnics, don't forget that the Logan Steam Fire Engine company will hold their annual picnic on Thursday, August 15th, at Hunter's Park. Every person who has ever attended one of this company's outings, knows for themselves what a delightful time they always afford all visitors; and that, too, free from the rowdyism that so often accompanies picnics of this character. And the list of amusements for the day is unusually long and interesting, including base ball, bicycle races, all other kinds of races, various contests, good dinner and supper, and unlimited amount of dancing. The best of music will be had by a proficient band and orchestra. Everybody should make arrangements to attend this gathering. Special trains will run to and from the grounds almost every hour.

Got a Bad Fall.

Wednesday morning as Lester Shafler was riding from Morris' lime kilns to his home on his bicycle the wheel struck a stone knocking it directly from under him and throwing him forward on his face. He received an ugly gash above the left eye as well as a number of smaller cuts on his face, and his hands were also badly lacerated and bruised; so much so, that he has to keep them both securely bandaged. He also has his head tied up, altogether presenting an appearance of an old-time gladiator after a five [illegible] in the prize ring. But cuts and bruises will heal soon and Lester can be thankful he had no bones broken.

FOR PROTHONOTARY,
ABRAM V. MILLER,
of College Twp.

FOR DISTRICT ATTORNEY,
HENRY C. QUIGLEY,
of Bellefonte.

WASHINGTON LETTER.

Washington, Aug 12, 1895.

From our Regular Correspondent.)

The anti-Cleveland democrats are once more saying cuss words in connection with what they call "Cleveland luck." They say that the death of Justice Jackson has given Mr. Cleveland another lever to pull in his efforts to control the next democratic national convention, and every man at all familiar with national politics knows what a powerful lever a vacancy upon the U. S. Supreme Court can be made by an ambitious president, and Napoleon was never more ambitious of obtaining personal power for himself than is Mr. Cleveland. There is logic, too, in the ravings of these mad democrats. Of course it isn't either right or decent to use the word "luck" in connection with the death of an eminent jurist like Justice Jackson; but there can be no denial that this vacancy in the Supreme Court has added to Mr. Cleveland's power; nor that he will make use of it, as he does of everything else, to help him control the democratic convention. Circumstances will favor him, too. Nobody will expect the vacancy to be filled until after Congress meets, although the next term of the Supreme Court begins in October, because the nomination could not be acted upon by the Senate until then, and there is an unwritten law, which has very seldom been ignored, against a justice taking his seat upon the bench of the Supreme Court before his nomination has been confirmed by the Senate. This being the situation, Mr. Cleveland is at liberty to dangle this tempting bait in front of every democrat he wishes to control, and he will not fail to do so, although in the end the place will probably go to some one of his creatures like Wilson, Olney, or Bissell. It is not surprising under the circumstances that the anti-Cleveland democrats should be hot in the collar from other causes than the sweltering weather.

Washington's G. A. R. men are making preparations for sending a big delegation to the coming National Encampment at Louisville, Kentucky, September 11-13. Corporal Tanner is very enthusiastic about it. He says: "Everything conspires to make the assemblage one of the largest and most inspiring ever gathered together in this country. It will be held at a point that may be said to be central, so far as veteran organizations, both Union and Confederate are concerned. On the South will be Knoxville, Chattanooga, Atlanta, New Orleans and other cities, and on the North and West are Illinois, Indiana, Ohio and other states which are just alive with Union veterans. In addition to all these favorable circumstances the dedication of the battle field of Chattanooga, which takes place only a day or two before the opening of the encampment, will tend to greatly increase the attendance at the latter."

Public opinion can affect even a democratic administration. After saying that this government had no fund from which money could be taken to help the wife and children of ex-U. S. Consul Waller (who is in prison in France under a court-martial sentence believed to be unjust), who are stranded at Port Louis, Mauritius, the State Department changed front, after learning from the newspapers what the public thought of such inhumanity, and directed the U. S. Consul at the place named to secure transportation for Mrs. Waller and her children on the French steamer which sails for Marseilles, France, on August 20. The same power may eventually compel the administration to do something for Waller even though he be only a colored man. He is an American citizen.

It is regarded as significant that the manipulators of the Whitney boom should have passed the word around to the Whitney democrats not to allow Mr. Whitney to be spoken of as a Cleveland candidate without contradicting it. This means, if it means anything, that Whitney's managers, who are among the shrewdest democrats in the country, consider Mr. Cleveland's friendship a detriment rather than a help. Another significant thing was the statement of a close friend of Senator Hill, that Whitney would not be able to get the New York delegation to the nominating convention. He said that Hill had never forgiven Whitney for nominating Cleveland in '92, and would use his influence against him. It is well known that Hill controls the democratic machinery of New York, but it has heretofore been claimed that he would support Whitney.

Found the Fountain of Youth!

At the age of 90 G. W. Goff, who lives near Punta Gorda, Fla., has grown young again. Up to a year ago Mr. Goff was blind, partially deaf and bald, and had been so for many years. About that time however, he suddenly recovered his eyesight and hearing and his hair began to grow. Now Mr. Goff hears and sees as well as he ever did and his head is covered with a growth of black hair. As his eyesight strengthened and his hair grew a marked change occurred in Mr. Goff's physical condition, and from being a decrepit man, hardly able to walk, he became as strong and active as a youth of 20 years. The wrinkles on his skin disappeared and he now looks fresh and youthful.

The case has puzzled the physicians. They say the man is entirely rejuvenated and may live 90 years longer. They assert that the old tissues have been replaced by new and that physically Mr. Goff is not more than 20 years old. So youthful did Mr. Goff feel that last week he married a handsome young girl. To look at the couple one would never suspect that there was any difference in their ages, although the groom is 70 years older than the bride.

Mr. Goff was [illegible] in Georgia in 1805. He fought in the Indian war under Andrew Jackson, and remembers "Old Hickory" well. He was also in the Mexican and civil war, and was wounded at the battle of Buena Vista.

Greater Care Should be Exercised.

Farmer Ira Miller, whose place is near Tarrytown, N. Y., was greatly annoyed by cats and dogs in his front yard, and he bought a shotgun to exterminate them. One evening last week a dog howled, and, raising a window, he fired at what in the darkness he thought was the dog, but which proved to be Mary Argue, aged 10, the daughter of a wealthy resident, who was on her way to prayer meeting. The little girl received the full charge in her side and was picked up unconscious and dying. Miller, the aged farmer who did the shooting, is prostrated, and it is feared the shock may kill him. Coming so closely upon the unfortunate killing of Richard Green, the colored lad, by Miss Flagler in Washington, this incident emphasizes the necessity for exercising every care and precaution when discharging loaded firearms. In the case in Washington Miss Flagler did not intend to hit anything, and in the case in Tarrytown Mr. Miller intended to shoot only a dog. In both cases these people pointed and discharged loaded firearms and snuffed out young lives. The greatest care is not enough to exercise in these matters.

Reduced Rates to Grangers' Picnic at Williams' Grove via Pennsylvania Railroad.

For the accommodation of persons desiring to attend this interesting picnic and exhibition the Pennsylvania Railroad Company will sell excursion tickets on August 24, 26, 27, 28, 29, and 30, good to return until September 2, inclusive, from stations in the following territory, at rate of one fare for the round trip:—

From all principal stations on the Pennsylvania Railroad division west of Bryn Mawr and east of East Liberty, both inclusive.

From all principal stations on the Northern Central Railway north of Lutherville, Md., and south of Canandaigua.

From all principal stations of the Philadelphia and Erie Railroad Division.

Died Aged 104 Years.

A Wastover dispatch says: Mrs. Barbara Baum, the oldest person in Cambria county died on Monday last. She was born in 1791, having attained the advanced age of 104 years. This remarkable woman despite her age, enjoyed good health until the illness which preceded her death. In her early life she was renowned for her great physical strength and endurance, performing feats that would tax the strength of most able-bodied men. One was that of standing in a half-bushel measure and shouldering a bag containing three bushels of wheat. She cleared many an acre of Cambria county forest, for which she received 25 cents per day. She was skillful in handling an axe and attended many a log [illegible] and did her share of the work.

No mystery about it. When the Shakers offered some time ago to give away a bottle of their Digestive Cordial to any one who might call at their New York office, there was a great rush and a great many people thought they were crazy.

Subsequent events prove it to have been a very clever advertising transaction, for although they gave away thousands of bottles, it was in the end profitable; nearly every one that took a free bottle came back for more and paid for it with pleasure, saying they had derived better results from its use than from any other medicine they had ever used.

There is nothing so uniformly successful in the treatment of stomach troubles as the Shaker Digestive Cordial, and what is better than all, it relieves at once.

REDUCED RATES TO BOSTON, MASS.

One Fare for the Round Trip via Pennsylvania Railroad.

From August 23 to 26, inclusive, the Pennsylvania Railroad Company will sell excursion tickets to Boston, Mass., going and returning by the same route, at a single fare for the round trip, account Twenty-sixth Triennial Conclave of Knights Templar, to be held in Boston, August 26 to 30. The tickets will be good to return leaving Boston not later than September 10, and must be used to destination on Pennsylvania Railroad not later than midnight of September 11.

Excursion tickets, good going via one route and returning via another, will be sold on the same dates at a slight advance over the one-fare rate for the round trip.

Justice for Thieves.

The killing of a burglar at Crafton yesterday morning has attracted considerable attention and a few people are disposed to criticise the ready use of fire arms by citizens in the protection of their property, just as at Washington in the case of the shooting of a boy by Miss Flagler. In the local case there is no shadow of excuse for such a sentiment. The householder was not only defending his property but his life and was wounded in the fight.

The law presumes that every thief who trespasses upon another man's property for purposes of plunder is also, prima facie, guilty of intention to do bodily harm to the persons lawfully on the premises. The legal occupant is given the lawful privilege of killing such an intruder and his act is, in law, self-defense. In this the law is right and it is the most mawkish of sentiments to sympathy with the fate of the lawbreaker.

In the case of the Washington boy who was killed while stealing fruit there has been a hue and cry about tempting the boy. It would be better if the indignation were directed toward those who neglect to teach their boys the immorality and the dangers of poaching and robbery. Killing may be regarded as an extreme measure of defense in such a case and in the particular case under discussion no such casualty and was a crime. The step from the boy robbing an orchard to the man breaking in to rob a house is a natural and short one and it is time people were taught that a citizen has a constitutional right to defend his property and that robbery is dangerous.

In a Sunday school, when the lesson of the Good Shepherd was being explained, the question was asked. "How does the Good Shepherd know his Sheep?" Young Washington, who had been visiting his uncle's sheep farm, thought he knew. "Tell the class, my dear," said the teacher. "Some he slits their ears and some he marks red chalk," said the boy. These would be distinguishing marks indeed, but not more so than are the marks of health on the countenances of those who use Dr. Pierce's Golden Medical Discovery For all blood-taints, from whatever cause arising, poisons and humors, such as scrofula, tumors, ulcers and kindred affections, its equal does not exist.

Is there anything more wholesome, more beautiful, more completely pleasing than a womanly woman? Such a woman is even tempered, intelligent, strong and healthy. Health really tells the whole story. Health means strong nerves and strong body, and they go far toward bringing good looks and amiability.

A woman worn and wearied by the dragging weaknesses peculiar to her sex, cannot be expected to find zest in any duty or amusement. Life is all one dead monotonous gloom to her. On her face is written the story of weakness and pain. The wholesomeness of health is lacking. The cheeks lack fullness, the eyes lack sparkle, the hair lacks luster.

Doctors have learned to locate nine-tenths of womanly sickness in the organs that ought above all others to be strong and healthy.

Sensitive women shudder at the thought of consulting a physician on such matters. A natural feeling of modesty makes them dread the examination, and subsequent stereotyped treatment by "local applications" on which most doctors insist.

Much more often than not, this is unnecessary. It should not be submitted to except as a last resort.

Dr. Pierce's Favorite Prescription has cured thousands of severe cases of "female weakness." It works in a natural, sensible way. It begins by subduing the inflammation that is always present. Then it strengthens and invigorates the whole body, particularly the organs distinctly feminine. It promotes regularity, cures inflammation and ulceration, and stops the debilitating drain caused by them. Of all dealers.

Texas Fever at Birmingham.

Dr. F. Bridge, state veterinarian, accompanied by Dr. H. G. Patterson, of this city, went to Brimingham yesterday and examined the cattle that have been supposed to be affected with Texas fever. Five of the cows have died and the cause of death was pronounced by Dr. Patterson to be Texas fever. This decision was sustained by the state veterinarian. There is no present danger of the disease spreading The milk from cows affected with the disease cannot be injurious to any one consuming it and will not convey the disease.

Dr. Patterson came very near receiving rough treatment at the hands of some of his farmer friends when he told them there were no diseases as "hollow horn" and "wolf in the tail." Some of them said that they had many a time cut out the "wolf" from the tails of their cows.

Singerly or Hastings, Which?

Colonel Singerly's Philadelphia "Record," like all the other democratic papers of the State, is naturally against Hastings and for Quay. Col. Singerly and his newspaper were both against Hastings last November, and they can't forget his 271,000 majority. Which will Republicans vote with now—Singerly or Hastings?

Gilkeson was the Republican State chairman in that engagement, and so Col. Singerly's paper is even hotter against him than against Hastings.

Small Beginnings

Make great endings sometimes. Ailments that we are apt to consider trivial often grow, through neglect, into atrocious maladies, dangerous in themselves and productive of others. It is the disregard of the earlier indications of ill health which leads to the establishment of all sorts of maladies on a chronic basis. Moreover, there are certain disorders incident to the season, malaria and rheumatism, against which it is always desirable to fortify the system after exposure to the conditions which produce them. Cold, damp and miasma are surely counteracted by Hostetter's Stomach Bitters. After you have incurred risk from these influences a wineglassful or two of Hostetter's Stomach Bitters directly afterward should be swallowed For malaria, dyspepsia, liver complaint kidney and bladder trouble, nervousness and debility it is the most deservedly popular of remedies and preventives. A wineglassful before meals promotes appetite.

What is
CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."
DR. G. C. OSGOOD,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."
DR. J. F. KINCHELOE,
Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."
H. A. ARCHER, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

GILMORE & CO., CINCINNATI, O.

—A correspondent of the Practical Farmer gives the following method of relieving choked cattle: Take of fine cut chewing tobacco enough to make a ball the size of a hen egg. Dampen with molasses so it adheres closely. Elevate the animal's head, pull out the tongue and crowd the ball as far down the throat as possible. In fifteen minutes it will cause sickness and vomiting, relaxing the muscles so that whatever object may be in the throat will be thrown up.

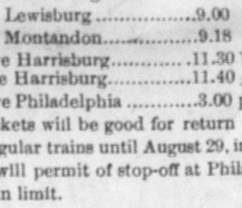
He Looted the Jail.

Thieves often break jail, but it is commonly taken for granted that they break out, their object being to force an exit from, and not an entrance to, the premises in question. It has been reserved for an enterprising Yankee burglar of the nutmeg state to break jail from the outside to effect forcible entry and to loot the place, stealing a pair of horses and a surrey to make his escape withal. This precious rogue is no doubt gifted with a sense of humor, and he probably enjoyed robbing the warden of the state prison as a huge practical joke. That worthy official may very well have been surprised when he awoke in the morning to find the stable doors open and the carriage-house empty, and he seems to have acted with precipitation, due perhaps to anger and indignation, rushing off to town and advertising a reward of $100 for the apprehension of the bold marauder and the return of the stolen property. Herein the warden was more hasty than wise. Horses are dog-cheap in these days, and the surrey may have been worth no more than the team but the burglar who can break into the state prison and get away with his plunder is worth ten times $100 at least. To get square with that joker the warden could well afford to pay $1,000 out of his own pocket.

DR. KILMER'S SWAMP-ROOT



THE GREAT KIDNEY, LIVER AND BLADDER CURE.

Pain in the Back
Joints or hips, sediment in urine like brick-dust frequent calls or retention, rheumatism.

Kidney Complaint
Diabetes, dropsy, scanty or high colored urine.

Urinary Troubles
Stinging sensations when voiding, distress pressure in the parts, urethral irritation, stricture.

Disordered Liver
Bloat or dark circles under the eyes, tongue coated, constipation, yellowish eyeballs.

At Druggists, 50 cents and $1.00 size.
"Invalids' Guide to Health" free—Consultation free.
DR. KILMER & Co., BINGHAMTON, N. Y.

That Organist.

There's an organ barred and bolted,
Fastened down;
There's an organist that's vanished,
From the town,
He has raised a mighty racket,
For inside his outside jacket,
There is stored the key much wanted,
In his gown.

There's a vestryman quite warm,
Beneath the collar;
He would gladly from his purse,
Transfer a dollar—
To the man, who 'gainst his fist,
Will shove up that organist,
And will hold him till he loudly
Makes him "holler"!

Why, we can't have any music,
Any more;
With the choir master bathing,
At the shore.
Why, confound his "bloody eyes,"
If anybody dies,
We can't sing a funeral anthem,
That is sure.

Chinese Pleas to Defense.

Incidental to the recent massacre of missionaries in China, a reminder is sent from that country of the massacre of Chinese at Rock Springs, in our own Western territory, a few years ago. We are also reminded of the Chinese exclusion act as one of the causes of hostility toward Americans in China.

While we cannot deny there is some ground for Chinese antipathy to Americans there are marked points of difference. Neither the authorities of the United States nor of any State connived at the massacre of Chinese laborers nor condoned the offense. In nearly all, if not all cases where Chinese have been abused in this country, they have brought the trouble upon themselves by immoral practices, violation of the laws and generally obnoxious behavior, which we have reason to believe cannot be changed against the missionaries in China, though the missionaries themselves bear testimony to improper and brutal conduct on the part of foreign visitors in China.

China has been undoubtedly right to exact an American exclusion law in retaliation for our Chinese exclusion act, if it wants to. If it desires to exclude Americans that is the proper course for it to pursue. It has no right to admit Americans to its territory and then permit them to be maltreated, their property destroyed or their lives endangered, without official interference.

While it may be admitted the Chinese question is not all one-sided, as the missionaries quoted in yesterday's Dispatch indicate, it must be obvious to the fair-minded that Chinese degradation and brutal superstition is chiefly responsible for the troubles. It is the revolt of a semi-barbarous and heathen people against enlightenment and the encroachment of a superior race upon their territory.

Wheeling to Philadelphia.

Just at noon to-day Messrs. Mitchell and Taylor, two members of the Denver Wheel club, arrived in this city on their wheels. They left Denver, Col., on June 1, on a wager that they would make Philadelphia on a certain date, and also earn $500 on the way with a mandolin and banjo, on which they are expert performers. They are now twelve days ahead of schedule time and have got in $440. They averaged 100 miles per day until they struck the mountain roads of Pennsylvania, which they claim are worse than the sand of Nebraska. They are bronzed by sun and wind and look the picture of health.

The local wheelmen have taken them in hand and are doing their best to make their stay in this city a pleasant one. When they leave here they will go by the way of Lewistown, Harrisburg and Lancaster.

The wheels ridden by these gentlemen are Falcons, made by the Yost company are fitted with Morgan & Wright tires. They have until Aug. 25 to reach Philadelphia, and, providing they have no mishaps will easily reach the place by that time.

Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

Onion Juice Mucilage.

A very convenient mucilage can be made of onion juice by any one who wishes to use it. A good sized Spanish onion, after being boiled for a short time, will yield, on being pressed, quite a large quantity of very adhesive fluid. This is used extensively in various trades for pasting paper onto tin, or zinc, or even glass, and the tenacity with which it holds would surprise any one making the first attempt. It is cheap and good mucilage, and answers as well as the more costly cements.—Invention.

Pennsylvania Game Laws.

The Pennsylvania game laws, revised to date, are as follows:

Elk and deer, October 1 to December 15. Spotted fawns, hounding and killing deer in water prohibited. Dogs pursuing elk or deer may be killed by any person, and the owners of dogs that habitually run elk or deer are liable to prosecution.

Squirrels, September 1 to January 1; ferrets prohibited.

Wild turkeys, October 15 to January 1.

Plovers, July 15 to January 1.

Woodcocks, July 4 to January 1.

Quails, November 1 to December 15.

Ruffed grouse (pheasants), October 1 to January 1.

Rails or reedbirds, September 1 to December 1.

Wild fowl, September 1 to May 1. Netting, trapping and snaring, hunting web-footed fowl with any steam or sail boad or craft prohibited. Shoulder guns only allowed. Pigeon nesting protected within a radius of one mile, and disturbance in any manner during nesting season prohibited. Sunday and night shooting and artificial lights prohibited.

Salmon or grilse, March 1 to August 15; under three pounds protected.

Speckled trout, April 15 to July 15; under five inches protected.

Lake trout, January 1 to October 1.

Black bass and wall-eyed pike, May 30 to January 1. Black bass under nine inches protected.

Green, yellow, willow rock, Lake Erie and grass bass, June 1 to January 1; under six inches protected.

Pike and pickerel, June 1 to January 1.

Carp, September 1 to May 1. Artificially stocked streams protected for three years after stocking.

Electrical Locomotion.

While higher speed, greater comfort and cleanliness for through train service may be the ultimate object and outcome of the Westinghouse-Baldwin alliance, the first want to be filled will be better transit facilities for suburban traffic. Already the competition of the trolley road has been felt by the steam railroads in this field. In some cases they have dropped accommodation service, while in others they have increased the number of trains or resorted to the trolley themselves to retain a fair proportion of the suburban patronage.

This phase of electric transit may be less fascinating to the electricians and engineers than annihilating the time of long journeys, but it is probably more important to the future of the country. Census reports show clearly the tendency of the population to concentrate in cities and towns. There has been an equally strong tendency to overcrowding of population in small districts of the cities and the creation of tenement slums.

With the advent of rapid transit facilities that will enable people to cover considerable distances without loss of time from their work or business, there should come a diffusion of population and wonderful enlargement of the boundaries of cities. There should be even a check to the growth of urban population as compared with rural population when the suburbs are put within easy reach of the city centers. Thus the development of electric locomotives and motors for the comparatively short haul is a very important matter, with two objects to be gained—speed and cheapness.

The Editor's Wood Pile.

We were engaged the other day in piling wood in the cellar and our thoughts ran in the direction of the amount of labor expended in cutting, preparing, hauling and getting the wood to the stove or fireplace. First the trees are felled in the forest, then the trunk and limbs are cut into four foot lengths and cut and split and piled, then hauled out to the roadside or slid down the mountain; then hauled off to the market; then delivered at the houses of customers; then thrown into the cellar or woodshed; then sawed; then split; then piled; then carried into the house and placed into a woodbox; then burned. Eleven times at least the wood is handled and re-handled, about half of which labor falls upon the seller and the other half upon the consumer. It is about the same with coal. The original article is of less value than the labor required to get it into practical use by the consumer. And so it is largely with almost everything that goes into general consumption. Labor is the great element of cost in human existence.—Northampton (Mass.) Gazette.

Are You Guilty?

Every newspaper man will appreciate the following if no one else does: "Get your printing done where you please—it's your right—but please do not, after spending your money elsewhere, come to this office begging free local notices. It isn't decent. Besides, it's cheeky."

The newspapers do not want everything, when they are called upon to insert notices of entertainments, etc., free, while all the job printing for the same has been done outside of the office, we should think it would make the persons who do it feel about one half their usual size. If you are in the habit of doing this, cut this article out, paste it in your hat and the next time you ask the newspaper for a free notice just take this out and read it before you go to the office and see how the idea strikes you. Just try it once.

F. H. THOMAS, Supt.

Suicide at Morrisdale.

A young girl named Maud Scott, daughter of Robert Scott, of Morrisdale, committed suicide last Friday by taking poison. She helped her mother prepare supper and after the meal was over cleaned away the table and washed the dishes. Then she went up stairs to dress. Some time had elapsed when her mother heard her scream as if in dreadful pain. The mother ran up to the room and found her daughter rolling in death agony on the floor. Before medical aid arrived the girl was dead. An inquest was held and the coroner's jury decided that she died from poison administered by her own hand, but the kind of poison and the manner of administering it was not determined nor could be without a postmortem examination, and as the corpse swelled almost to bursting and became petrid in a few hours, it was decided to bury it and await the orders of the district attorney. The young girl was engaged to be married and her lover deserted her, which is supposed to be the cause of the suicide.

Trial List.

For second term of August court, commencing September 2nd, 1895:

Rush township, Poor Dist. vs. Austin Lynn.

Thos. Meyer, et al. vs. R. W. Downing, et al.

J. Ross vs. J. Eckenroth.

Rishel & Ocker vs. American Insurance Co.

E. S. Dorworth, use of vs. Clement Dale admr.

Mr. Oswalt vs. Hartford Fire Insurance Co.

W. McDowell vs. G. S. Flegal.

A. Platt & Co. vs A. Kien.

H. Ewing vs. G. W. Williams.

W. Bierly vs. J. Mills, et al.

F. Decker, et al vs. A. Lytle.

Samuel Marsh vs. Forge Run Lumber Co.

Abe Halderman vs. Centre & Kish Turp. Coal Co.

Little Bonanza Fanning Mill Co. vs. J. B. Howe.

William H. Taylor & Co. vs. Wm. Parker.

Moshannon Lumber Co. vs. A. & B. C. R. R. Co.

T. Barnes vs. L. C. Brinton.

Bicycle Tourists.

Messrs. Fred Jones, Wilbur Jones and Harry Mayes, of Osceola, and Ed. Jones, H. J. Goss, Frank Humphrey, George Rumberger, H. Wolf, Albert Scott, of Philipsburg, and Elmer Shaffer and T. S. Adams, of Chester Hill, rode over to Bellefonte on Sunday on their bicycles, leaving Philipsburg at 6 o'clock in the morning and arriving at Bellefonte at 11. Sunday was hot stuff in the way of weather, but the party rode almost the whole distance both ways. They got to Philipsburg in three sections, the first arriving at 6 a. m. and the second and third at 7 and 8. At Port Matilda on the way over the party met Will Tyson on his way to Bellefonte from Tyrone, but he shook them at Unionville, and took a rest. They stopped at the Brockerhoff House for dinner, with the exception of "Rummy," who took dinner with his father, Register G. W. Rumberger. Fred Jones got one of his tires punctured, and had to walk a short distance, but he got it fixed at Port Matilda, and that was the only accident that happened either going or returning.

Played With Powder.

On Tuesday Albert, a 14 year old son of Christ Schrock, got badly injured from playing with powder. Albert in company with several other boys got a piece of old gas pipe at his father's blacksmith shop. They welded the ends together and bored a small touch hole in it and then filled it with powder. They took the pipe up on Logan street and Albert fired the infernal machine. A report followed that shook the buildings. The young lad was all the sadder for his fun. He was badly burned about the face from flying powder and his hand is severely lacerated. Since then he has been laid up for repairs, under the care of Dr. Hibler. The boy's eyes are not injured.

Thus it goes, boys will be boys. They like to monkey with anything that has any danger connected with it.

Ill at Niagara Falls.

Ed. Cowdrick is lying critically ill with typhoid fever at Niagara Falls, where he has been some time at work with his brother. His father and mother, Mr. and Mrs. M. W. Cowdrick, are there taking care of him and his condition is such that his mother never leaves his bedside. Unless there would occur a change for the better on Wednesday a consultation of physicians was to be held. His attending physician said that having a very strong constitution and being young and healthy, was the only favorable chance for his recovery.

They Got a Tip and Skipped.

Wilkesbarre, Pa., Aug. 8.—For the past two years there has been a pool room running in this city in full blast by New York parties under the name of the Electric and Money Transfer company. A warrant was issued to-day for the arrest of all parties interested. A "tip" was given them and when the police made raid upon the place they found no one there. Ten minutes before the officers arrived the place was running in fullsway and was crowded with gamblers. As soon as the proprietors are found they are to be arrested.

Strong alum water is efficacious as a vermin destroyer.

NAVAL EVOLUTIONS.

Uncle Sam's Cruisers will go Through Their Fine Points.

Washington, Aug. 7.—The inauguration of a series of naval evolutions and strategic manœuvres greater than ever attempted before in this country, was marked to-day by the departure of the cruisers New York Montgomery and Cincinnati from New York for Newport. For the next two months these vessels, with several others belonging to the North Atlantic squadron, will execute a marine programme extending from Hampton Roads, Va., to Halifax, N. S., which will include a strategic attack on New York and the working of a number of problems prepared by the naval war college.

On their arrival at Newport the vessels which left New York to-day will be joined by the Raleigh and dispatch boat Dolphin. Evolutions in naval tactics will be the first business of Admiral Bunce's fleet, and these will extend to Portland, Me. Secretary Herbert will probably accompany the fleet for that distance.

The battleship Texas will be placed in commission on Aug. 15 and will join the squadron immediately thereafter. If the Columbia proves to have sustained no injuries from her recent docking experience at Southampton, she also will be sent to join Admiral Bunce when she comes out of the dry dock at Brooklyn. The cruiser Minneapolis will go to Newport in a few days and it is possible that the Monitor Amphitrite will follow. If the battleship Maine is completed in time she too will be added to the fleet.

The programme of evolution has not been fully prepared but it will be necessarily kept secret in order to carry out the intention of the admiral and the officers at the war college—to conduct a campaign such as would prevail during a war with foreign vessels endeavoring to capture cities along the Atlantic coast.

In the Durant Case.

San Francisco, Aug. 7.—Just after the opening of the court in the Durant case this morning District attorney Barnes and Mr. Dickinson, one of the attorneys for the defense, held a consultation with Judge Murphy, after which Mr. Barnes asked for an adjournment of the case. The attorneys for the defense concurred in the request. Mr. Barnes said that certain circumstances had arisen which made it necessary to ask for adjournment. Judge Murphy said that he was opposed to any unnecessary delay, but he thought an adjournment was proper in view of what had been communicated to him. It is understood an attempt has been made to tamper with some of the jurors.

A Tall Story.

A paper in Kansas is entitled to the medal, for telling its readers tall corn stories. The following, clipped from its columns, is our reason for saying so:

The horrible news comes from Vinland that a young man the other day climbed a corn tree to see how the ears were coming along, and now the corn is growing faster than he can climb down. Three men began work to-day to chop the stalk down, and it is hoped the young man may be rescued before starvation overtakes him.

Work of Alien Anarchists.

The labor strike by the miners of Spring Valley presents features which should attract the attention not only of the whole State of Illinois, but of the whole country. It appears that the operators have chosen to employ some colored men to take the places of the alien Anarchists who have been gathered in that centre of industry in very large numbers, and murderous violence has been precipitated by the foreigners, resulting in the death or injury of many colored men.

Think of 2,000 alien Anarchists holding public meetings in the State of Illinois, not one in a hundred of whom can speak the language of the land, declaring that no colored man, woman or child could remain in the community beyond a given hour without exposing themselves to murder and their property to confiscation or destruction. Such a public insult to the good order of the community could go unchallenged in no other State than Illinois, whose Governor is in sympathy with the anarchic sentiment of the slums.

It is high time that every foreigner seeking employment in this free land should be taught that the right of every other man, woman or child, black or white, to peaceably pursue their industries in accordance with their agreements with employers shall be respected, and that all who attempt to interfere with them shall be punished to the utmost extent of the law. Above all no alien Anarchist should be permitted to raise his voice in any section of the country against the freedom of labor or the rights of property, and the operators of Spring Valley should at once resolve that not one of these alien Anarchists shall even be again employed in that community.

The laws are ample in every State for the maintenance of the rights of every citizen and they should be rigidly enforced. When the rights of the humblest of workmen are impaired by anyone it is seldom done by any but aliens who are strangers to our language and our laws. When such dangerous elements attempt to control the employment of labor by violence they should not only be severely punished but they should be absolutely denied employment wherever they have violated the laws.

Silver Knights of America.

Oliver C. Sabin, secretary of the "Silver Knights of America," has issued the following address to the people of the country:

This order has been organized for the purpose of combining the people into local societies where they may be reached from this central organization, to the end, that they may be thoroughly educated and informed, upon the necessity of changing the laws of this country, so that silver and gold may be each coined at our mints, upon equaled terms, of 16 to 1. It is the purpose of the Order to encourage the election of men to Congress and of Presidential electors, who are committed to this principle, and in every legitimate and lawful way possible to work for the election of such men, and to defeat as far as possible, all persons running for office, legislative, State and National who are committed to the single gold standard. It is the desire of the organization that every friend of silver remonetization may take an interest in the advancement and forwarding of the Order. The election, occurring in 1896, will largely settle the fate of this country. If men are elected and a majority is secured of those, who are favorable to the remonetization of silver, prosperity will be the result; but if, on the contrary, men are elected, a majority of whom are the creatures of the gold trust, hope will die and the country will sink in a condition of financial servitude, intelligence will be dwarfed, labor pauperized, and want and destitution will become the familiar guests at the fireside of very producer in this land, be it the farmer, mechanic, or any one following a productive art. The crisis upon us is the most serious that has been presented to the American people, since the days preceding the Revolution of 1776. It would be a thousand times better for every living man to-day, in this country, if in forwarding the cause of the remonetization of silver, he lost every cent of his property, and even lost his life, than to have to go down to prosperity, bound to the car of the Rothchilds, and the satelites, insuring to his children, and his children's children ages of want, ignorance destitution, and the most squalid slavery which surely will result in a "Gold Standard" victory. The picture of an English mother, working at an iron forge, hammering iron, and making nails, from early dawn to late at night, for $1.27 a week, and the further picture of the Japanese woman working at the cotton looms of Tokia for 7 cents a day displacing the girls of Massachusetts or Georgia will become familiar in this country, if English idea and English practices, are to be grafted permanently upon our institutions. Those who wish to take an active part in this campaign, a campaign which will not end until the end of the election in 1896, are requested to write to the undersigned for further and fuller information. This is a work for patriotism, and one which must depend upon the patriotic sentiment o the American people for success, and if we are true to ourselves, our country will be redeemed. When the mighty army of American yoemanry is marched into this breech, we believe and trust in God, and through his aid, they will save our once happy land from the hands of the d spoiler. American patriots you are called to the rescue. Address,

OLIVER C. SABIN,
1420 New York Avenue, N. W.,
Washington, D. C.

Don't Wrap the Lamps

Several hotel men were standing in a roup in an uptown hotel recently, chatting. The conversation turned on the eccentricities of guests. The many odd ways in which different people handle electric lights came up, and one hotel man said: "Nearly every one now knows how the incandescent lamp is operated, but we still meet with some funny instances of ignorance. Last week we nearly had our hotel set on fire on account of a piece of stupidity on the part of a guest. The building being fireproof alone prevented a conflagration. A woman came to the house who was in the habit of sleeping with a dim light in her room, and the electric lamp bothered her. She either had to let it burn brightly, or else turn it off altogether. Finally she hit upon the idea of wrapping a towel around it. Then she began to question whether the towel would catch fire. Then she adopted the happy expedient of wetting the towel. That was the worst thing that she could do. She soon dropped asleep, and, of course, the towel soon began to burn. A blazing piece dropped on the curtains, and soon the whole room was on fire. She was badly scared, and, of course, the contents of the room were ruined.—New York Tribune.

ARE KEEPING QUIET.

Some Officials Are Said to Be Reticent in the Gold Reserve.

Washington, August 8.—The reticence that prevails among treasury officials when they are approached on the subject of the condition of the gold reserve and their absolute refusal to offer any opinion as to what this outflow of gold of the past two weeks signifies, leads to the conclusion in some quarters that the treasury is uneasy about the situation. It is quite probable that by Saturday the syndicate will be compelled to prove whether it considers its contract fulfilled or whether it feels constrained to assist the government in maintaining the reserve. The rapid diminution of the reserve, the speedy descent from more than $107,000,000 to a very little margin over the amount the reserve is required to be, has shown how easy a raid, even under the guise of the ordinary course of business, can be conducted. Treasury officials are emphatic in their statements that this loss of gold is due to legitimate business and point to the character of the houses taking it out to show that it is not the result of speculation. Whatever may be the cause, the loss is felt and will be felt to a still greater extent before the week is ended. There was an intimation at the treasury to-day that notice would be given to-morrow of a withdrawal for export Saturday, and officials do not hesitate to admit that the indications point to the further loss of an amount equal if not greater than that which was shipped on to-day's steamer. At the close of business this afternoon the reserve stood at the $104,118,662 mark, a loss over yesterday of $369,442. The one million shipped to-day has not been reported to the treasury in the official balances from New York and will not, therefore, appear in the reports until to-morrow. The exact condition of the treasury finds the reserve amounting to only $103,118,661. This shows a loss of $4,500,000 since the syndicate made its last payment, July 5.

Household Brevities.

In boiling rice, peas or macaroni save the water in which they are boiled for use in soups.

In making hard pudding sauce add sugar gradually to butter, and it will cream more quickly.

Poultry that is scalded will not keep as long as will poultry that has been dry picked.

Thread a needle from the end of the thread last cut from the spool.

Stuff a rag saturated with cayenne pepper in rat holes.

Buy new rubber rings for fruit jars. Don't use the old ones if you want your canned fruit to keep.

Wasting
* Diseases

Many people suffering from wasting diseases are simply starving in the midst of plenty. Nourishment, proper nourishment is what they crave, and must have quick.

Bovinine

is the greatest nourishment in the smallest bulk—is palatable, easily assimilated, and acceptable to the weakest stomach. Ask any physician, and he will tell you this is so.

Where the Lesson Is Needed.

Full knowledge as to the Indian scare proves that the only thing like war was the killing of Indians by whites; that the Bannocks went back to their reservation, even under great provocation to hostile acts, and that the sole aggressors in the matter were the whites of the Jackson's Hole neighborhood, who have a very strong conviction that they wish a monopoly of the earth in that particular locality.

The affair has one gratifying side. Since the efforts to exasperate the Indians into a war have failed, it affords some foundation for the belief that a long and somewhat expensive Indian war has at last produced one example of Indians who have been taught not to resent attack with outrage, and will go back to their reservation when hostilities threaten. It seems that after exterminating a large majority of the aboriginal inhabitants of this land, we are succeeding in educating a few. It would be comforting if we could say as much for their white neighbors.

The fact that the Indians have learned the duty of keeping on their reservation should inspire the more difficult task of teaching the same lesson to the whites.

A Horse of Another Color.

A girl found a package of love letters that had been written to her mother by her father before they were married. The daughter saw that she could have a little sport, and read them to her mother, substituting her own name for that of her mother, and a fine young man for that of her father. The mother jumped up and down in her chair, shifted her feet, seemed terribly disgusted, and forbade her daughter having anything to do with a young man who would write such sickening and nonsensical stuff to a girl. When the young lady handed the letter to her mother to read, the house became so still that one could hear the grass growing in the back yard.

MERCURIAL POISON

Is the result of the usual treatment of blood disorders. The system is filled with Mercury and Potash remedies—more to be dreaded than the disease—and in a short while is in a far worse condition than before. The most common result is

RHEUMATISM

for which S. S. S. is the most reliable cure. A few bottles will afford relief where all else has failed.

I suffered from a severe attack of Mercurial Rheumatism, my arms and legs being swollen to more than twice their natural size, causing the most excruciating pains. I spent hundreds of dollars without relief, but after taking a few bottles of S.S.S. I improved rapidly, and am now a well man, completely cured. I can heartily recommend your wonderful medicine to anyone afflicted with this painful disease.

They Want the Sewer.

With wonderful regularity during the part two or three years the residents of Allegheny street around Mr. Munson's locality, have periodically appeared before borough council and asked an abatement of the almost unbearable gaseous stench arising from the underground sewer which has its opening right at Munson's alley. That they were, and are, right in their demands goes without question. During the interval between the two last council meeting nights the Street committee done some work which, it was hoped, would in a great measure do away with the nuisance; and, we believe, it did result in much good.

They also had a survey made and the level taken through Munson's and Tripple's alleys, and presented an estimate of what it would cost the borough to put down a sewer, of sufficient capacity, from Allegheny street to the creek, and the cost would be anywhere from $1,500 to $2,000. Now the property owners, through whose property the old sewer runs, are kicking, and demand that the old sewer be closed up and the new one built through the above-named alleys. They threaten prosecution for damages unless this is done.

Of course, looking at the question from a legal standpoint, they have a winning case, but is it right, as property owners and taxpayers in the borough already head over heels in debt, to attempt to compel an additional incumbrance of two thousand dollars at the present time, if the nuisance complained of can be abated otherwise and without any damage to their properties? This is a question that should be looked at in the proper light, and at the most, all hasty action of any kind should be avoided; especially when it is a matter of dollars and cents to the taxpayers of the borough.

Death of Alvin P. Barry.

A. P. Barry died at his home, in Harrisburg, Thursday afternoon of lung disease. He had been ill for some time. The deceased was married ten months ago to Miss Emma Irwin, of Centre, Lancaster county, who survives him. He is also survived by his father, J. J. Barry, of Harrisburg; a sister, Mrs. David Haines, of this place, and two brothers, John, of Altoona, and Sidney T., of McKeesport. A number of years ago Mr. Barry lived in Bellefonte, and was employed by Sechler & Co., grocers.

THE story of an exiled lottery, which, after having been driven out from the United States, is now existing precariously in a Central American Republic (Honduras), is told by Richard Harding Davis in HARPER'S WEEKLY for Aug. 3.

THE LAST OF THE SEASON.

Tour to the North via Pennsylvania Railroad.

The last of the Pennsylvania Railroad Company's personally-conducted tours to the North will leave on August 20.

These tours traverse more than seventeen hundred miles of the most magnificent country, and a participant in the last tour, an extensive traveler, states that in his experience he has found no tours of equal distance so replete in points of genuine interest, every one of which is in itself well worth the trip. The stop at Quebec, a new feature, added greatly to the success of the last tour.

The name of the places to be visited are familiar to all and suggestive of wonderland. No matter how much may be expected, one cannot be disappointed in Watkin's Glen, Niagara Falls, Thousand Islands, Quebec, Montreal, Au Sable Chasm, Lakes Champlain and George, Saratoga, or the Highlands of the Hudson. The round-trip rate of $100 from New York, Brooklyn, Newark, Trenton, Philadelphia, Harrisburg, Baltimore, and Washington will cover all necessary expenses during the time absent. A beautiful descriptive itinerary can be procured from the tourist department of the Pennsylvania Railroad, 1196 Broadway, New York, or Room 411, Broad Street Station, Philadelphia.

Clinton County Veteran Picnic.

On Thursday, August 15th, the Clinton County Veterans' Association will meet at Clintondale park. If the weather is favorable the gathering at the park on that day will probably be the largest of the season, as all soldiers of the late war, their friends and the public in general haye been invited to attend. The annual meeting of the Association is a general picnic and there will be good speakers and several bands on the grounds. Oratory and music will be special features of the occasion. The Sugar Valley G. A. R. men are expecting to attend the picnic in force and will be accompanied by one or more bands. A number of veterans from other counties are expected. An effort is being made to secure a special train, to leave the park about 6 o'clock in the evening for the return trip to Mill Hall.

Married at Blanchard.

The many friends of Mr. C. H. Foster of State College, will be surprised to learn that he was married to Miss Maud Snyder at Blanchard, at 7 o'clock Thursday evening. The ceremony was very unostentatiously performed at the home of the bride's father, ex post master Henry Snyder, of that place, in the presence of only the immediate relatives of the young people.

The bride is the second of three daughters in the family and is considered to be one of the most popular girls in the vicinity in which he resides. The groom is the oldest son of Wm. Foster Esq., of State College, and has been attached to the railway mail service for a number of years. He owns considerable property at State College among which is a charming new home into which he will take his bride upon their return from a brief wedding tour.

A Newspaper Rumor.

The Williamsport News says if rumor is true, and there is every reason to believe that it is in this case, there will be a change in the newspaper field in Williamsport before long that will doubtless be a surprise to some people. The rumor in question is that Senator Cameron has bought or is about to buy the Times of this city and will run a morning and evening paper, which will, of course, be used for the purpose of assisting his return to the Senate.

A Probable New Industry.

There is a probability that Mill Hall will have a new industry before very long. It is stated on good authority that another axe and tool factory will be erected in the borough this fall and that the establishment will be a large one and not controlled by the trust. The report is that there is an abundance of capital behind the enterprise. The site, it is stated, has been selected and the erection of the new buildings for the plant will begin soon.

A Presiding Elder Dead.

Philadelphia, August 8.—Rev. Dr. James Hepburn Hargis, a prominent Methodist clergyman and the presiding elder of the western district of the Philadelphia conference, died early this morning. Dr. Hargis has been in indifferent health, as a result of several attacks of the grip. Acute kidney trouble was the direct cause of death.

Rev. Dr. Hargis was born on the eastern shore of Maryland in May, 1847, received his education at Dickinson college, where he graduated in 1871. He was admitted into the Philadelphia conference in 1872 and was given a charge at Allentown. His succeeding charges were in Philadelphia, except for a short time at Jersey City, and from 1883 to 1885, when he was in charge of the Methodist Episcopal mission in Rome, Italy.

That Organ Key.

There's music locked within a casket rare,
And, ears attentive, strained await the sound.
Yet, swallowed by oblivion, is the key—oh, where!
Can magic wand or opener be found?
Jewels await him who, with fairy wand,
Those pipes set blowing in their wonted way.
Blessings for him who, with skillful hand,
Will start the thing that helps a man to pray.

THE LAST DAYS IN CAMP.

The Hard Work Over, the Soldiers Have Their Fun.

CAMP GREENLAND, Pa. Aug. 8, '95.

Yesterday was a beautiful day in camp, and, as usual, hundreds of visitors were on the ground bright and early to make a day of it with the blue coats. The exhibition drills of regiments and companies, of the Sheridan troop and Battery "B," and the impromptu game of base ball played by the "cracks" of the Tenth and Eighteenth regiments, furnished abundant amusement to every one. The event of the day, however, was the grand review of all the troops of the brigade by Major General Snowden. The writer was permitted to witness this review—the first he has seen since he joined the guard—and he was not surprised that the prospect of witnessing such a grand spectacle always attracts such throngs of interested observers. It was certainly a beautiful sight, as nearly 60 companies passed the reviewing stand, company front, with steady tread and well dressed lines, inspired by the stirring music produced by the combined efforts of the brigade band and the bands of the 18th, 16th, 15th, 14th and 10th regiments. Following these came the cavalry and artillery. The appreciation of the spectators burst out in rounds and rounds of most hearty applause. General Wiley's face, as the troops passed by in their glory, beamed with pleasure and satisfaction all the while.

At 6.30 the ceremonies of the day were practically closed by the dress parade of the several regiments. The dashing charges of the famous Sheridan troopers was a thrilling scene, just as the day was drawing to an end. Later in the evening the raid on a sutler who had developed some pugnacious traits, proved quite an interesting event to some of the 5th and 18th regiment boys, but not quite so interesting to the sutler. The Pittsburg papers seemed to misunderstand the situation and described it in to-day's papers as a riot between the members of the above-mentioned regiments. Of course the boys are considerably amused over it.

A FOOT BALL GAME.

The next thing of thrilling interest to some of the boys will be a foot ball game played either this evening or to-morrow evening between Company B and the tenth regiment. The latter regiment has in it several members of the Greensburg eleven and Washington and Jefferson college and, of course, they are talking of the "dead cinch," they'll have. On the other hand the Company "B" eleven are only too afraid that something unforseen will occur to prevent the match coming off. They are over-anxious for the affray and, if the teams meet, something will surely drop. A great interest in the match has developed in the brigade and has even reached Freeport up the river.

The Company B team will line up as follows:

POSITION.	TEAM	WEIGHT.
Right end	Private John Robinson	160 lbs.
Right tackle	Adjutant Phil Foster	185 "
Right guard	Private Will Fishburn	185 "
Centre	Sergt. Phil Garbrick	185 "
Left guard	Private Wetzel	184 "
Left tackle	Captain Quigley	180 "
Left end	Sergt. Major Stayer	180 "
Quarter back	Sergt. J. R. Hughes	135 "
Left half	Lieut. H. S. Taylor	160 "
Right half	Private F. Robinson	158 "
Full back	Company C. Mattern	170 "
Substitute	Private Holmes	185 "
"	Sergt. Smith	175 "
"	Corporal Dorworth	140 "
"	Private F. Taylor	160 "

The above team, with a little training could hold its own with any team and it is ready now to accept a challenge from any eleven in the brigade. They had signal practice last evening after dress parade and the members of the other companies in the fifth regiment opened their eyes. To-day the annual sham battle will take place and immense crowds are expected to arrive from Pittsburg and all neighboring points.

SOME PERSONAL NOTES.

They boys are enjoying the camp experiences hugely, even politicians Hoover and Koch are not complaining, in spite of the daily routine of police duty through which they pass. Hoover has developed into an expert woodchopper and when ever he fails political or insurance efforts he will have another good axe to grind. Koch, to the great surprise of all, has evinced a remarkable allegiance to duty. In fact he is always on duty. A moment ago he remarked, "This is the first morning I haven't been doing police duty and hat is due to the fact that I'm on guard." It would interest some of Sammy Taylor's friends at home to see how well he can dig sinks. You know Sammy has a great weakness for the girls and it takes him very far sometimes, even beyond the guard lines. Yesterday he went all the way to Butler to see some fair ones and after he arrived this morning and finished telling about his great mashes in Butler, he was immediately given a little work to do with pick and shovel. But, of course, Sammy doesn't mind that.

Private Trone makes a fine regimental orderly.

Private Billy Tonner was selected to give color to the color guard.

Private Professor Rutt is fascinated with military life, but is convinced his health is permanently better when teaching at Bellefonte.

Sargent Alexander is making a first class commissary sargent for the company.

It may well be said that drunkenness among the soldiers here is almost an unknown quantity, and the effect upon the discipline is very agreeable.

J. R. H.

NIAGARA FALLS.

$10 Tours via Pennsylvania Railroad.

The next of the series of personally-conducted tours to Niagara Falls, via Pennsylvania Railroad, will leave Philadelphia on August 15.

The rate for round-trip tickets, good for ten days, is $10 from Philadelphia; Harrisburg, $8.60; Williamsport, $5.80; proportionate rates from other points.

A special train of Pullman parlor cars and day coaches will be run, and a tourist agent and chaperon will accompany the tour.

The tickets will permit a stop off at Watkins and Rochester in each direction, and at Buffalo on the return trip.

For specific rates and time of trains application should be made to ticket agents, or to Tourist Agent, Room 411, Broad Street Station, Philadelphia.

That Game of Foot Ball.

Receiving no report from our correspondent to-day, we take the following account of the foot ball game at Camp Greenland from the Pittsburg *Times*:

There was more real carnage in a foot ball game between the Fifth and the Tenth regiments than the soldiers have yet seen. Two desperate struggles, each of 15 minutes in length, ended in a victory for the Tenth, by a score of 4 to 0. The game was played on the parade ground, under the eyes of 5,000 spectators, made up of troops and visitors. There were many old college players in both teams, State college being represented by Mattern, the Robinsons, Taylor and Foster, Princeton by Capt. Hughes, and Wittenberg by Stayer, of the Fifth. In the other team were Laird, Weakley, Timblin, Hamilton, of Grove City; and Rehn, of Washington and Jefferson. The teams lined up as follows:

B. Wilson	Full back — W. Wattern
R. Laird	R. half-back — F. Robinson
W. Weakley	L. half-back — H. Taylor
C. Rehn	Quarter back — J. Hughes
W. Randon	Left end — E. S. Stayer
C. Timblin	Left tackle — H. Quigley
C. Hamilton	Left guard — J. Fishburn
R. Thomas	Centre — G. Felt
R. Coulter	Right guard — P. Garbrick
C. Copeland	R. tackle — P. D. Foster
T. Donahue	Right end — J. Robinson

The game was hot. The sun was broiling and there was no more slugging than is excusable in college athletes. Weakley made the solitary touchdown. The players of the Fifth took their defeat in good part, admitting that they had been fairly beaten. Charles Aull, P. A. C., acted as umpire, and Lieut Stout, formerly quarterback at West Point, as referee. Col. A. L. Hawkins, of the Tenth was one of the most enthusiastic spectators in the big crowd. Captain Joseph M. Hunter was another of the same stripe. He "managed" the Tenth. There was some really fine playing done by both sides.

The Silver Men's Challenge.

The open letter below printed from Hon. A. J. Warner to Hon. Chas. Fairchild speaks for itself. It is a challenge which the opponents of free coinage cannot afford to ignore.

Hon. Charles S. Fairchild, Chairman Committee on Sound Currency, Reform Club, 52 William Street, New York.

DEAR SIR:—

The existence of the Committee on Sound Currency, of which you are chairman, with the existence at the same time of the American Bimetallic League, which I have the honor to represent, evidences a wide diversity of opinion on the money question. Each organization is laboring to educate the people on different theories of money, and each advocates a different financial policy. They can not both be right. The deep interest manifested on this subject throughout the United States, and the importance of arriving at the truth, that the people in the coming election may act wisely, has suggested that a candid discussion of the question by representative men of the two organizations might conduce to a better understanding of the truth, and be highly beneficial.

With this view the Bimetallic League respectfully invites the Committee on Sound Currency to a discussion of the money question on distinctive propositions to be agreed upon, and to be carried on by questions and answers.

I would suggest that not more than five, nor less than three, on a side, be selected to conduct the discussion; the discussion to be held at such time and place as may be agreed upon.

Should this suggestion meet your approval I would suggest an early meeting to agree upon the proposition to be discussed and the regulations under which the discussion shall be conducted.

Very respectfully yours,
A. J. WARNER,
President American Bimetallic League.

Blanchard Fishing Party.

About forty people of Blanchard were out fishing along Bald Eagle creek on Wednesday of this week and Miss Nettie Stover, an accomplished young lady of Lock Haven, helped to serve the elegant dinner that was spread along the shore about 12.30 o'clock. It was greatly enjoyed by all. Miss Lizzie Bechdel caught the largest fish and Wm. H. Snyder hooked the next largest. The party was a success and everybody was pleasantly entertained.

DIRECTIONS for using CREAM BALM

Apply a particle of the Balm well up into the nostrils. After a moment draw a strong breath thro' the nose. Use three times a day, after meals preferred, and before retiring.

ELY'S CREAM BALM opens and cleanses the Nasal Passages, allays pain and inflamation, heals the sores, protects the membrane from colds, restores the senses of taste and smell. The Balm is quickly absorbed and gives relief at once. Price 50 cents at druggists or by mail. ELY BROTHERS, 56 Warren St., New York

CATARRH

COLD IN HEAD

RATHER COSTLY.

This Thing of Taking a Census is of an Expensive Nature.

Washington, Aug. 7.—United States Commissioner of Labor Carroll D. Wright, who succeeded Hon. Robert P. Porter as superintendent of the eleventh census, today submitted to the secretary of the interior the report of the operations of the census for the fiscal year 1894-5. It shows that the total expense of the census up to date has been $10,531,142.

The force has been reduced from time to time, as the work neared completion, until now but ninety persons are employed, and they form a division recently made a part of the interior department. All the work can be finished with the appropriation now available, except the final printing and binding.

The uncompleted work comprises the population schedule, vital statistics, part of the compendium, and the second addition to the abstract and statistical atlas. Mr. Wright is of the opinion that the work can be completed and placed before he public by the end of this calendar year.

Wild Dogs in Westmoreland.

The country west of Greensburg is said to be overrun with packs of hungry dogs, which make raids on the farmers' poultry. About the beginning of the year people living in the vicinity of Radeburg noticed seven dogs, presumably of the shepherd species, running wild among the coal banks on the Shney, Armstrong and Hughes farms. This number has been steadily increasing until it is estimated that no less than a hundred of these canines inhabit the country, making their headquarters in the coal mines, some of which are abandoned They are as ravenous as wolves and run wild over the farms.

Made a Century Run.

The Williamsport Gazette and Bulletin reports that S. W. Bowman and Lyman Pray made a century run on Sunday, going as far as Zion, Nittany Valley, and returning in twelve hours. They left here at 5 a. m. and reached Lock Haven at 7.25 and Zion, by way of Mill Hall, Clintondale and Nittany at 9.45 o'clock. By cyclometer it was shown that the brick church at Zion is fifty miles from here, and that was made the turning point, and they reached Lock Haven for dinner at 12.25 p. m. They left at 2 p. m. on their return trip. They report the roads as very fair.

Relief In Six Hours.

Distressing Kidney and Bladder disease relieved in six hours by the "New Great South American Kidney Cure." This new remedy is a great surprise on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your remedy. Sold by F. Potts Green. Druggist, Bellefonte, Pa. 6-20-1y.

HUMPHREYS'

Nothing has ever been produced to equal or compare with **Humphreys' Witch Hazel Oil** as a CURATIVE and HEALING APPLICATION. It has been used 40 years and always affords relief and always gives satisfaction.

It Cures PILES or HEMORRHOIDS, External or Internal, Blind or Bleeding—Itching and Burning; Cracks or Fissures and Fistulas. Relief immediate—cure certain.

SINFUL HABITS IN YOUTH

LATER EXCESSES IN MANHOOD

MAKE NERVOUS, DISEASED MEN

THE RESULT of ignorance and folly in youth, overexcitement, indulged by lust or excesses in after years, is usually evidenced by the loss of happiness of thousands of promising young men. Ruined ambition, blighted hopes, at the blossom of manhood, while others are forced to drag on a weary existence. Others reach matrimony, but from nervousness or exhaustion become victims. Are found in all stations of life—The Lawyer, the Clergyman, the Physician, the Author, the Editor, the Clerk, the Workshop, the Farm, the trades and the professions.

EDWARD T. TUTEN.

Local Department.

—Sweet, intoxicating deliciousness; oh! um! Cider making time is here.

—The new hydrant has finally been put in the Union cemetery and now all parties so desiring can get water nearby.

—Charles Smith has moved his insurance office from the opera house block to the fourth floor of the new Temple court.

—According to the report of Bellefonte millers, the new wheat is of an unusually good quality, and makes excellent flour.

—Look for a programme of the Christian Endeavor Convention at Philipsburg, August 27th and 28th, in this paper next week.

—New potatoes are selling in Bellefonte markets at 40 cents a bushel. From all indications tubers will be unusually cheap this season.

—Rush Larimer has repurchased the grocery store of James J. Gramley, and in the future will conduct the business at the old stand.

—The workmen employed in the ore banks of the Valentine Iron company were given an advance of ten cents a day on and after August first.

—The Ladies' Aid Society of the U. B. Church will hold a festival in the chapel of their church corner of High and Thomas Streets, Saturday evening, Aug 17. All invited.

—Harry Lucas, son of James Lucas, of Boggs township, died on Monday of blood poisoning. The remains were interred in the Messiah cemetery, Rev. J. Zeigler officiating.

—All persons who have been cutting timber on the tract of land owned by Mr. Charles McCafferty are requested to desist, as the timber has been taken up by another party.

—"Eagle Block" is the name Col. Pruner intends giving his remodeled building. This name has probably been suggested because it so proudly soars above the adjacent tree tops.

—Charles Heisler says the biggest corn he ever saw can be seen on the farm of P. B. Crider, down near Beech Creek. Chas. positively avers that the stalks are from seventeen to twenty feet in height.

—The Centre county Teachers' Institute will be held in the court house the week in December beginning the 14th. It is probably held thus early so as to be over and done with prior to the holidays.

—The Methodist church at Fillmore will hold an ice cream and cake festival next Saturday evening, August 17th. All the delicious edibles customary at such places be had, and there will be an endless amount of amusements, etc. Everybody is invited to attend.

—Mill Hall axe makers are rejoicing over the prospect of an increase in wages to the old price paid last year. During last winter there were two reductions, but the demand for axes has become so great now that there is every prospect for a raise in wages of the workmen.

—Hon. P. Gray Meek, Surveyor of the Port at Philadelphia, stated on Monday that there is not the least doubt but that the administration will win in the present Republican party factional fight. And Mr. Meek is right where he is in a position to find out the news pretty straight.

—The "personal" writer in the Philadelphia *Inquirer* is certainly well versed in geography. He says: "Congressmen W. C. Arnold is from DuBois, Jefferson county." Now, who ever knew that DuBois was in Jefferson county, or that Jefferson county was in this congressional district?

—Governor and Mrs. Hastings are taking a lively interest in the Cotton States and International Exposition, at Atlanta, Ga. Mrs. Hastings is chairman of the committee on Pennsylvania day for the Woman's Congress department over, which Mrs. Loulie M. Gordon, of Atlanta, presides.

—An attempt was made on Friday night to burglarize the store of Joseph Bros. & Co., on Allegheny street. The burglar or burglars tried to force the bolt on the rear door, but in every attempt they were unsuccessful; or, perhaps, were frightened away. At all events, they failed to gain an entrance.

—According to the Scientific American bicycles are the safest places on earth or in the air during a thunder storm because the pneumatic tires filled with dry air are a perfect insulator, impervious to the attacks of the electric fluid. While the chance of the ordinary biped being struck by lightning is as one in ten million, that of the bicyclist in action is as one in a billion.

—If you drink the gang will drink with you; swear off and you will go it alone, for the bar room bum who drinks your rum, has a quenchless thirst of his own. Feast and your friends are many, fast and they cut you dead; they'll not get mad if you treat them bad, so long as their stomach's fed. Steal, if you get a million, for then you can furnish bail; it's the big thief that gets out on leave, but the little ones go to jail.

A DELAYED LETTER.

Though A Little Late, It is Still Worth Publishing.

We just last night received the following letter from our correspondent at Camp Greenland and, though it is a little late, it is of a character that will permit of its publication even at this late day:

CAMP GREENLAND, Pa., Aug. 9, '95.

This is the last day of one of the most delightful encampments ever held by the Pennsylvania Militia. It has been a grand success as to weather, attendance of visitors and the manouvering of the troops. Good order prevailed most all the time while sufficient fun and excitement have interspersed at time to give considerable spice to the weeks' sojourn here. But while much enjoyment has been experienced by one and all, yet countless are the boys who have "attractions" at home and therefore feel that the order to break camp is welcome at any time. The expectation is that the Fifth Regiment will prepare for departure at 9 o'clock to-morrow morning.

Yesterday was battalion day and thousands of visitors lined the camp on every side to witness the interesting and thrilling charges of infantry, cavalry and artillery. The gallant Fifth charged up the mountain side and after a long and severe engagement with the battalion of the enemy, the flag of truce was raised by the latter and the flag of victory waived over the regiment of Central Pennsylvania. When the smoke of battle had cleared away, the survivors of the victorious regiment assembled by companies once again and marched off to quarters midst the thundering applause of the thousands of captivated observers. To-day was one of drills by regiments, many of them under the command of West Point officers who expressed great surprise at their efficiency, declaring emphatically that they were in fat better drill than they expected to find them.

The series of the weeks' drill was concluded with the brigade dress parade this evening. Orchard avenue, or the street of Company "B," might at times remind one of the Midway Plaisance at the World's Fair. Not only do we have the "Dutch Settlement," where may be found at different times Sergeant Alexander, Corporal Lose, Corporal Garis and Privates Koch, Shroyer, Rutt, Wetzel and Fishburn communicating in their well known tongue, but also there is "Blarney Castle," through whose tented walls constantly echo the Irish melodies of Jimmy Morrison, Pat Ryan and Elsie Sunday. Then the attire of the boys who gather after drills in groups beneath the shade of the apple trees remind one of the Hungarian, Italian and Swedish hordes grouped at the mines after dinner awaiting the signal to resume work.

The monkey-shines and never-ceasing and out landish gabble of Willis Williams call to mind the ridiculous fakir of the Midway, while the giddy conduct of a Sergeant from a foreign company brings back the Ferris wheel that put so many in a whirl at Chicago. The music of the paddle or an occasional guitar or an itinerant quartette of singers conducts us once more to the Egyptian or the Arab musicale. Sergeant Garbrick in his gun-swinging acts suggests the drum major of the museum brass band. Farley Taylor is the Corbett of the company. But we cannot enter into further detail except to say that the fun of the regiment is centered in Orchard Avenue, or the Midway Plaisance of Camp Greenland. Lieutenant Taylor had charge of patrol yesterday, while Lieutenant Jackson is in command of regimental guard to-day. J. R. H.

—The school children's vacation is fast drawing to a close.

—About 1,500 Odd Fellows came from Williamsport to the picnic at Hecla on Tuesday.

—The berry season is now about over, but the season of delicious fruits, apples, peaches, pears, etc., is just here.

—Three weeks from next Saturday will be the opening day of the granger's picnic at Centre Hall. Hon. Leonard Rhone says the exhibition will be bigger this year than ever.

—While attending campmeeting at Pine recently two Lock Haven men found a bee tree which yielded them 120 pounds of honey. This was a literal construction of the "land of honey" without a doubt.

—Although the political campaign has not yet opened up, yet the local candidates are stirring around a little just to keep their fences in good condition. A. V. Miller, it is said, is laying a good foundation.

—There is now some likelihood that if the creditors of the defunct DuBois bank wait long enough, they may get dollar for dollar; although it is just now a little uncertain as to which generation will receive it.

—And now Judge Gordon, of Clearfield, comes forward with the startling announcement that it is not unlawful to kill fish with dynamite. In an opinion handed down he says the purpose of the act is all right but the intent was not made specific enough.

—On Monday evening the Christian Endeavor Society held a business meeting, the object of which was to elect one delegate to the State Convention at Erie and one to the county convention in Philipsburg. The lucky persons were Miss May Goodfellow, who will represent the society in the State convention, and Miss Emma Green, who will perform the same duty at the county convention.

CENTRE CO. VETERAN CLUB

Will Hold Its Annual Reunion at Hunter's Park, Sept. 7th.

Pursuant to a call of the President the executive committee of the Centre County Veteran Club met in the hall of Gregg Post Saturday morning at 10.30 o'clock. The Secretary not being present George M. Boal was appointed secretary pro tem. The following members answered to roll call, viz.

Gen. James A. Beaver, George M. Boal, John Hamilton, Fabian Matts, A. V. Miller, David Burrell, J. D. Long, M. F. Riddle, A. G. Royer, George F. Derr, Henry Heaton, W. H. Musser, John I. Curtin, J. R. Pheasant, D. B. Malone, William Resides, Lot Struble, W. H. Fry, W. C. VanValin, George W. Loner, George Martz, J. C. Bathgate, Henry Miller.

The resignation of John C. Miller as secretary was presented and accepted. On motion Comrade W. H. Musser was elected Secretary. The subject of the annual picnic was then taken up and, on motion, it was decided to hold the reunion at Hunter's Park, on Saturday, September 8th. On motion the following committees were appointed:

On transportation, John I. Curtin, John Hamilton, C. T. Fryberger.

On arrangements, W. H. Musser, S. H. Williams, M. F. Riddle. They were instructed to erect seats for the accommodation of the audience and a platform for the speakers.

Gen. J. A. Beaver, Gen. Andrew Gregg and C. Dale, Jr., were appointed a committee on securing speakers for the day. As a committee to audit the accounts of treasurer and report at the annual meeting W. C. Patterson, John W. Stuart and Dr. Theo. Christ were appointed.

It was also decided to guarantee a special train back to Coburn the evening of the reunion. Adjourned.

Died in Philipsburg.

Saturday's Philipsburg *Journal* says:

How very true it is that "in the midst of life we are in death." Yesterday Mr. T. D. Adams, known to everybody in this section as Dory, was moving about in his usual health. Last evening about 9 o'clock while sitting at his home on Sixth street, he was seized with a severe pain about the heart. His wife being down in attendance upon Mrs. Judge Munson, who has been sick for some time, he called in a neighbor. The latter was first by the side of her husband, but before the doctor arrived Mr. Adams had expired. His death was pronounced by the physician to be convulsions of the heart.

The deceased was aged 59 years. He was a native of Centre county, having been born and raised near Martha Furnace. He was the son of Thomas Adams, who died in this city a number of years ago. He has lived in Philipsburg the greater portion of his life, following various occupation, but for a number of years past has been engaged in the livery business. He leaves a wife but no children. Surviving him also are two brothers, William, now of Philadelphia; James, of Sioux City, Iowa, and one sister, Mrs. Poorman, of New Albany, Ind. He was a generous hearted man and had a large circle of friends who deeply lament his death and join with us in expression of sympathy to the bereaved wife and other relatives.

The funeral will take place on Monday afternoon at 2 o'clock.

Death of James Zimmerman.

James M. Zimmerman died at his home on East Lamb street Sunday afternoon, at 4.30 o'clock, from the effects of a stroke of paralysis received on Friday evening. He was aged 83 years, 3 months and 4 days.

Deceased was a native of Union county, where he was born, grew to manhood and got married. He came to Centre county about 30 years ago and engaged in farming in Boggs township. About four years ago, because of ill health, he disposed of his farm and secured a residence in Bellefonte where he has lived at ease ever since.

He is survived by a wife and eight children, the latter being as follows: John, of New York city; Harry, in New York state; Will, of Clearfield; Calvin, of Milesburg; Mrs. A. M. Butler, of Howard, and Mary, Jennie and Edith at home. The entire family have the kindest sympathy of all friends.

Death of Daniel Bates.

Daniel Bates, one of the oldest and best known physicians in this county, died at home near Gatesburg Sunday evening at 9.30 o'clock, at the advanced age of 84 years. Dr. Bates was a native of Connecticut and came to Centre county while yet a young man, locating at Stormstown where he practiced his profession of medicine. He also had an office at Warriorsmark. Later he moved to Ohio, where he remained a number of years, or until in 1879, when he returned to this county and located at Gatesburg, at which place he has lived ever since. During his life he succeeded in acquiring considerable property and died a wealthy man. His only relatives are Mrs. George Sheets, of this place, and her daughter.

The funeral of Mr. Bates occurred Tuesday morning at 10 o'clock, interment being made in the Lutheran cemetery at Gatesburg.

The best is what you want when you are in need of a medicine. That is why you should insist upon Hood's Sarsaparilla.

WEATHER PREDICTIONS.

Foster Tells of Storm Waves and Changes to Take Place This Month.

My last bulletin gave forecasts of the storm wave to cross the continent from 10th to 14th, and the next will reach the Pacific coast about the 15th, cross the west of Rockies countries by close of 16th, the great central valleys from 17th to 19th and the eastern states 20th. In portions of the country this will be a very dangerous storm and about the same time storms of great force will occur in various parts of the world on sea and land.

The destructive storms will occur from Aug. 16 to 23, I have not the least doubt, but to definitely locate these storms is at this time, not possible. The force may be concentrated in a tropical hurricane, and if this occurs the West India Islands and the southeastern coasts of the United States and of Asia will experience disastrous storms. If the force is centered in the transcontiental storms indications are that their greatest energies will be expanded near Vancouver islands or on the Alaska coast, in the great central valleys not far from the fortieth parallel, and on the north Atlantic southeast of Newfoundland the storm wave mentioned in the first paragraph of this bulletin being the middle of the three, and all moving eastward.

The warm wave preceding this storm will cross the west of Rockies country about Aug. 15, great central valleys 17th and eastern states 19th. The cool wave will cross the west of Rockies country about 18th, great central valleys 20th and eastern states 22d. This cool wave will probably cause light frosts in some of the northern states.

Aug. to 23, Sept. 15 to 22, Oct. 13 to 20, and Nov. 12 to 18, are dates when severe, dangerous, destructive storms may be expected, more particular details of which will be given in further bulletins. Closely following each of these storms frosts will go unusually far south, and corn and cotton will be damaged to some extent.

Crops will probably not mature as rapidly as most people are expecting. Notice was given in these bulletins some time ago that July, August and September would be remarkably cool in the corn belts, and this prediction was thoroughly fulfilled for July. If the predicted low average of temperature continues, late corn will not be matured on Sept. 18, near which date a killing frost is expected in the corn belt.

Cotton will mature slowly during Aug. and Sept. and, although Oct. will average hot, the frost that will occur about the 17 to 18 of that month will kill a very considerable portion of the plant in the northern part of the cotton belt.

I call special attention to the extremes of temperature and the severity of the storms near Sept. 17 and Oct. 16.

Arrested Tuesday Morning.

On July 26 this paper published an item in reference to the passing of a forged check on the Pennsvalley bank at Centre Hall by a man who gave the name of Carpenter. In the same item reference was made to a locality from which it was believed the man hailed, though no names were mentioned. On Monday Boyd Stonerode, of Milesburg, was in this office, and resented the item in question as being a personal application to himself, and just why he should think so, we do not know.

But on Tuesday young Stonerode, as well as a number of other people, were somewhat surprised when he was arrested on information of Enoch Hugg, the man whose name was forged on the check, on the charge of being the guilty person. Stonerode demanded a hearing and gave bail for his appearance before Justice of the Peace Keichline Friday morning at 10 o'clock. Of course it yet remains to be proven whether Stonerode is the guilty party or not; for his own sake, we hope he is not.

Will Appear in Bellefonte.

Charles B. Hanford, Elihu R. Spencer and Nora O'Brien are announced to appear next season as joint stars in a repertoire of Shakespearean and other standard plays. Mr. Hanford recently starred as Mare Antony with the Booth-Barrett Scenic Production of "Julius Caesar," Mr. Spencer appearing as "Cassius." Miss O'Brien hails from Baltimore, Md., and recently created a furore in society and professional circles in that city by her appearance as Juliet in Shakespeare's Romeo and Juliet. She is only eighteen years old, tall, pretty and of the Mary Anderson type of beauty. She recently graduated from the Leoretto Convent, near Niagara Falls.

Severe Storms in the State.

Thunder storms accompanied with high winds and hail in some sections, caused great damage throughout the State yesterday and property to the value of $100,000 was destroyed. Four large barns in Lancaster county six in Montgomery county, and several in other counties were burned by lightning. At Conshohocken the storm was half a mile wide and was accompanied by a terrific wind and a sulphurous smell.

You Think It] Is Something Else.

The "why" of the bad feeling is what puzzles you. It is easy to imagine so many causes, when the real one is indigestion. You think it is something else. The cure is Ripan's Tabules. A single tabule gives relief. Ask the druggist.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Personal Pencilings.

Miss Lulu Pacini, of this place, is visiting friends in Lock Haven.

Mr. William P. Humes spent Monday in Lock Haven transacting business.

Mrs. Annie Tipton returned on Friday from a visit to her mother at Tyrone.

Will Goodwin, the Episcopal church organist, is off on his annual summer's outing.

Mr. Jonn Anderson, Bellefonte's biggest restauranteur, is off on a visit to friends in Pittsburg.

Mrs. A. J. Brockerhoff and little daughter, Miss Margaret, spent Thursday with Tyrone friends.

Mr. F. W. Crider, wife and family departed Thursday morning for a sojourn at Asbury Park, N. J.

W. F. Reeder, Esq., looks every inch the soldier when arrayed in his Assistant Adjutant General's uniform.

Dr. William Laurie, D. D., with his daughter, Miss Jessie, have returned from their sojourn at the sea shore.

Miss Sallie E. Shivery, a pleasant young lady of this place, is visiting her friend, Mrs. C. F. York, in Warriorsmark.

Harry Jackson went down Nittany Valley on Monday to advertise the Logan picnic at Hunter's Park on Thursday.

Miss Lulu Pacini, who has been visiting friends in Lock Haven for the past two weeks, returned home Tuesday evening.

Mrs. James McLain and daughter, Miss Helen, of Massillon, Ohio, are visitors at the home of Mr. H. P. Harris, on Howard street.

Misses Ethel and Mary Dale, two of Lemont's pleasant young ladies, are visiting friends in Warriorsmark, Huntingdon county.

Miss Anna Bartley and her aunt, Miss Bella Fleming, after spending ten days in Philadelphia and Atlantic City, returned home on Saturday.

Nathan J. Mitchell, of the Westinghouse Electric Company, Philadelphia, accompanied by his family, is visiting his father, Ira C. Mitchell, Esq.

Mrs. Harry Teats and Mrs. H. V. Thompson, two charming ladies of Curwensville, are the guests of Mrs. Aaron Williams, on Howard street.

Superintendent J. W. Gephart accompanied Mrs. Margaret Wilson and Miss Blanche Hayes to Saratoga and Bar Harbor for a two weeks pleasure bout.

Robert B. Greer, a son of Judge Greer, and a student at State College, after a few days spent pleasantly with Ed. Harris in this place, departed Thursday for Altoona.

Mitchell I. Gardner, wife and son are away on a visit with friends in Tidioute. Mitchell has stuck quite close to business for some time and deserves a good vacation.

Mr. A. Sternberg, a former resident of Bellefonte, but who is now located in Philadelphia, was an arrival on Saturday and will spend a few days with friends here.

Commissioner's clerk, R. F. Hunter, who is a member of General Snowden's staff, returned from the Second brigade encampment at Glencairn on the late train Thursday evening.

Mrs. W. F. Smith and daughter, who were visiting friends in Millheim and vicinity, have returned to their home in this place, and Prothonotary William is consequently quite himself again.

Charles Rote and Samuel Bryant, two members of the Coleville band, were in Lock Haven on Friday posting bills and working up an interest in the approaching tournament to be held at Hecla by the above musical organization.

Miss Helen Hastings, daughter of Governor and Mrs. D. H. Hastings, is now a guest at the home of W. F. Reeder, Esq., on Allegheny street. She is on her way east and came here with Mr. and Mrs. Reeder from the encampment at Glencairn.

After a ten days' absence in Philadelphia and at the seashore Mr. William P. Humes returned home Thursday evening. He was accompanied by his sister, Miss Myra, who has been visiting friends in the eastern cities for several weeks.

Lost and Found.

On Monday Mr. C. H. McCauley, of Ridgway, who with Thad. McClain is visiting Mr. James A. McClain, in this place, in company with some friends took a trip to Penn's Cave. On the way over he lost a very valuable gold watch on the top of the mountain this side of Centre Hall. Naturally, the gentleman was considerably disturbed over his loss, but he was not destined to be long in suspense, as the watch was returned in the evening by W. A. Lyon, of this place, who was crossing the mountain close behind the other party and found the watch. It is a very fortunate thing that Mr. Lyon was the finder, or Mr. McCauley might never have recovered his timepiece.

To Break the Record.

Having made world's speed record for armored cruisers across the Atlantic Ocean with the Columbia, the Navy Department desires to break that record and estimate a new standard. The Olympia which has been ordered to proceed from San Francisco to Asia, has been instructed to do its best to Honolulu, and, if in good condition, to continue the fast run to Shanghai. The officers of the vessel believe they can do much better than the Columbia and make a speed record to be proud of.

So far as the record is concerned it may be some satisfaction to know just how cruiser speed will compare with that of the big merchants. But in the case of the Olympia it is more important to have it in Chinese waters as soon as possible. There may be business for United States cruisers in that locality, and it will do no harm to show the Chinese how quickly the whole American navy could get over if it was needed there.

Death of a Centenarian.

Mrs. Catherine M. Judge died Wednesday evening at 6 o'clock at the home of her son, Mr. James Judge on Erieavenue Renovo, after an illness of several months. The Renovo Record says the deceased, according to the church records, was born at the parish of Rivertown, Sligo county, Ireland, in 1787, and had attained the remarkable age of 108 years. Her husband died over 50 years ago, while a soldier in the British army. They had eight children, three girls and five boys, all of whom have passed away except her son James of this place, who is verging on his 75th year. She has enjoyed excellent health throughout life. Her mental faculties were all good up to the last moment.

Christian Endeavor Festival.

The Christian Endeavor Society will hold a lawn fete on the lawn surrounding the chapel next Friday evening, the 16th. There will be delicious refreshments and the grounds will be brilliantly illuminated with electricity. It will be a delightful occasion and as the Christian Endeavor Society understands perfectly how to conduct such affairs the attendance will be large and the occasion a grand success.

There will also be exercises in the chapel and Miss Mary Meek, Miss Mary Bradley, Miss Ella Twitmeyer, Miss Anna Furley and Messrs. George D. Bayard, Hard P. Harris, George R. Meek and Philip Waddle will take part in the singing. Miss Maggie Teats will deliver a recitation.

Marriage Licenses.

Following is the list of marriage licenses granted by Orphans' Court Clerk, G. W. Rumberger, during the past week:

Aaron Rhine and Ellen Glasgo, of Potter township.

Z. I. Woodring and Gertrude Stetler, both of Port Matilda.

Willard Dale, of College township, and Sadie L. Ishler, of Benner township.

Sutton W. Castrite and Lydia M. Richard, both of Sandy Ridge.

Byron's Shrine.

"Shrine of the mighty! can it be
That this is all remains of thee?"—*Byron.*

See a woman once rosy and bright, fair and beautiful, light of heart, quick of step, dulcet in tones, and very light and life of the house, and you see a picture that might be called a bit of Paradise. See that same woman worn by disease, pale and haggard, heavy of heart, speaking seldom, casting a shadow of gloom throughout the house by her presence, and you have a picture of Paradise Lost. Alas, she suffers from the ill that thousands of women know. Tell her that Dr. Pierce's Favorite Prescription is a certain cure for feminine weaknesses and derangement, it will restore health and good spirits and make her once more, a blessing to her family and the world.

Donnoha, Forsyth Co., N.C.

Dr. R. V. Pierce: Dear Sir—For some six or seven years my wife had been an invalid. Becoming convinced that it was her only hope, we bought six bottles of Dr. Pierces' Favorite Prescription and "Golden Medical Discovery." To the surprise of the community and the joy of myself and family, in one week my wife commenced to improve, and long before she had taken the last bottle she was able to do her work she had not been able to do before for seven years, and when she had taken the last of the medicine she was soundly cured. Yours truly,

Rev. T. H. STIMPSON.

Rupture, pile tumors, fistulæ and all diseases of the lower bowel (except cancer,) radically cured. Send ten cents in stamps for book. Address World's Dispensary Medical Association, 663 Main Street, Buffalo, N. Y.

Company B returned Saturday evening looking pretty tired and dusty, but very much as if the boys had seen some pretty hard work and very little play. Captain Quigley was in command and marched at the head of his company around to the armory.
